MOBILE CONVENTION WEBSITE

The Mobile Convention Website is an essential tool for time management and navigating the Convention. The mobile website provides users with the tools to build customized schedules by adding events and presentations into a smartphone calendar, locating and saving exhibitors, viewing floorplans and so much more.

There's no app! Just visit www.pdac.ca/convention on your smartphone or tablet to launch the mobile website.

Enjoy FREE Wi-Fi service throughout the MTCC (excluding exhibit halls). **Wi-Fi password:** pdac2016

Monday	March 7	8:00 am – 5:00 pm
Tuesday	March 8	8:00 am – 5:00 pm
Wednesday	March 9	8:00 am – 12 noon

HEALTH AND SAFETY

In case of Fire Alarm

The MTCC operates a two-phase alarm system:

Stage 1: Slow beeping sound, alert signal

- Remain calm
- If the alarm is beeping slowly, this is a warning. Do not evacuate the building at this stage
- Await instructions to be announced over the intercom (this will take approximately one minute) or speak to Security Staff

Stage 2: Fast beeping sound, evacuate signal

- Only evacuate the building if instructed to do so over the intercom or by Security Staff
- Leave the building via the closest emergency stairwell
- Fire Exits are highlighted in yellow on the floor plans that can be found on pages 3 – 4
- Do not use elevators or escalators
- If you encounter smoke in the stairway, use an alternate exit
- Once outside, stay clear of the building to permit emergency access
- Do not attempt to remove vehicles from parking garages or loading docks
- Do not return until declared safe by the Fire Official

Medical Emergency

In the event of a medical emergency:

- Dial 8160 on any MTCC house phone
- MTCC Security will respond and assess the situation
- If required, MTCC Nurse will be called to scene by MTCC Security
- If required, MTCC Security will call ambulance

Nurse's Office

South Building, Level 800 (see floorplan on page 4 for location)

1:30 pm – 2:30 pm	CSR Event Series: Preparing for the rebound: Strategic stakeholder engagement	Room 803
2:00 pm – 6:00 pm	Presentation Room: South African Department of Mineral Resources	North Building, Room 206D
2:30 pm – 4:00 pm	Student Program: PDAC Survival Skills	Room 714
2:45 pm – 4:45 pm	CSR Event Series: Driving value by prioritizing investments for sustainable...	Room 803
3:00 pm – 5:00 pm	Presentation Room: ERM	North Building, Room 205D
3:00 pm – 5:00 pm	Reception Room: SGS Canada Inc.	North Building, 205B
4:00 pm – 6:00 pm	Welcome Reception	Trade Show North, Level 300, Hall C
5:30 pm – 7:00 pm	Media Reception (By invitation only)	Fairmont Royal York, Imperial Room

MONDAY, MARCH 7

7:00 am – 5:00 pm	Registration	Level 600
8:00 am – 10:00 am	Reception Room: Argentina, Federal and provincial governments	North Building, Room 205B
8:00 am – 12 noon	Presentation Room: Canadian Northern Economic Development Agency (CanNor)	North Building, Room 201D
8:00 am – 12 noon	Presentation Room: Deloitte	North Building, Room 201F
8:00 am – 6:00 pm	Presentation Room: Ecuador, Gobierno Nacional De La Republica Del	North Building, Room 205D
8:00 am – 6:00 pm	SME Bookstore	Level 600
8:00 am – 6:00 pm	Presentation Room: Canada-Peru Chamber of Commerce	North Building, Room 206D

MONDAY, MARCH 7 (CONTINUED)

8:30 am – 9:15 am	Opening Ceremonies	Room 701
9:00 am – 10:00 am	CSR Event Series: Corruption & bribery: Using an effective compliance program...	Room 717
9:00 am – 11:15 am	Technical Program: Energy strategies, efficiencies: What is the right mix for your project?	Room 713
9:00 am – 11:15 am	Technical Program: Giant porphyry Cu-Au deposits...	Room 716
9:15 am – 11:30 am	Aboriginal Program: Collaborative projects for Indigenous community development...	Room 714
9:00 am – 5:00 pm	Trade Show & Trade Show North, Investors Exchange, Mining Marketplace, Prospectors Tent and Core Shack (Session A)	South Building, Level 800 North Building, Level 300
9:20 am – 11:50 am	Technical Program: Keynote session: 2026 – the future of exploration and development	Room 701
9:30 am – 6:00 pm	Presentation Room: Nordic Mining Day	North Building, Room 206B
10:00 am – 11:00 am	Student Program: PDAC-CIM Toronto Branch Guided Tour	Student Hub, Level 800
10:00 am – 11:00 am	CSR Event Series: The Extractive Sector Transparency Measures Act (ESTMA)	Room 717
10:00 am – 12 noon	Corporate Presentation Forum for Investors: Royalty companies & prospect...	Room 801A
10:00 am – 12 noon	Corporate Presentation Forum for Investors: Gold : Americas 1	Room 801B
10:00 am – 12 noon	Corporate Presentation Forum for Investors: Gold : Exploration	Room 802
10:00 am – 12 noon	Corporate Presentation Forum for Investors: Nickel & PGM	Room 803
11:00 am – 12 noon	CSR Event Series: Artisanal mining and the exploration perspective	Room 717
11:30 am – 1:30 pm	Reception Room: Condor Gold PLC	North Building, Room 205B
12 noon – 2:00 pm	Mineral Outlook Luncheon	Room 718
12 noon – 7:00 pm	Student Program: PDAC-NSERC-CMIG-GSM-SEG Student Minerals Colloquium	Fairmont Royal York, Ballroom
1:00 pm – 2:00 pm	Student Program: PDAC-CIM Toronto Branch Guided Tour	Student Hub
2:00 pm – 3:00 pm	CSR Event Series: Getting it right: How the Office of the Extractive Sector...	Room 717
2:00 pm – 4:05 pm	Technical Program: Coal? Yes coal!	Room 711
2:00 pm – 4:05 pm	Technical Program: Diamonds in southern Africa: Back to the beginning	Room 716
2:00 pm – 4:30 pm	Technical Program: Nevada gold deposits	Room 714
2:00 pm – 4:30 pm	Aboriginal Program: Aboriginal Forum: Sharing knowledge, enhancing participation	Room 701
2:00 pm – 5:00 pm	Corporate Presentation Forum for Investors: Silver	Room 801A
2:00 pm – 5:00 pm	Corporate Presentation Forum for Investors: Gold : Americas 2	Room 801B
2:00 pm – 5:00 pm	Corporate Presentation Forum for Investors: Base metals 1	Room 803
2:00 pm – 5:20 pm	Corporate Presentation Forum for Investors: Uranium	Room 802
2:00 pm – 6:00 pm	Presentation Room: ADIMB – Agency for Technological Development of the...	North Building, Room 201D
2:00 pm – 6:00 pm	Presentation Room: Geological Survey of Ireland	North Building, Room 201F
3:00 pm – 4:30 pm	CSR Event Series: Responsible outward investments of Chinese mining companies	Room 717
3:00 pm – 5:00 pm	Trade Show Reception	Trade Show North, Level 300, Hall C
3:00 pm – 8:00 pm	Reception Room: Nordic Mining Days	North Building, Room 205B
3:30 pm – 5:00 pm	Student-Industry Forum	Room 718
4:30 pm – 5:15 pm	CSR Event Series: The Beyond Zero Harm Framework: Measuring community well-being	Room 717
4:30 pm – 5:30 pm	Aboriginal Program: Networking Reception	Room 701
6:00 pm – 7:00 pm	Awards Evening Reception	Fairmont Royal York, Canadian Room Foyer
7:00 pm – 9:45 pm	Awards Evening Dinner & Presentations	Fairmont Royal York, Canadian Room
9:45 pm – 11:00 pm	Awards Evening Reception	Fairmont Royal York, Ontario Room

TUESDAY, MARCH 8

7:00 am – 5:00 pm	Registration	Level 600
8:00 am – 10:00 am	Reception Room: Dassault Systèmes Canada Software Inc.	North Building, Room 205B
8:00 am – 12 noon	Presentation Room: Deloitte (Private event)	North Building, Room 206B
8:00 am – 6:00 pm	Presentation Room: FTI Consulting	North Building, Room 201F
8:00 am – 6:00 pm	Presentation Room: Canada Eurasia Russia Business Association (CERBA)	North Building, Room 205D
8:00 am – 6:00 pm	SME Bookstore	Level 600
9:00 am – 10:30 am	Capital Markets Program: Recognizing the early signs of improving metals and...	Room 711
9:00 am – 11:40 am	Technical Program: Mining and integrated water management	Room 715
9:00 am – 11:40 am	Technical Program: What do mining analysts think about your company?	Room 714
9:00 am – 11:40 am	Technical Program: Zinc mines: Can global production be sustained?	Room 716

- ▶ Corporate Social Responsibility (CSR) Event Series
- ▶ Technical Program

2016

MARK YOUR CALENDARS...

2017

March 5 – 8

METRO TORONTO CONVENTION CENTRE

Technical Program

South Building, Level 700

(AM sessions)

Sponsored by

(PM sessions)

Need professional development hours to maintain your professional designation? Upon request, PDAC will provide a certificate of attendance at Technical Sessions to help you meet your PD hour requirements.

Presentations will not be recorded.

SUNDAY, MARCH 6 AFTERNOON

Commodities and market outlook

Room 701

Sponsored by **KPMG, PearTree Financial Services Ltd., RBC Capital Markets** and **Scotiabank**

Chairs: Santo Ranieri, Quadra Chemicals Ltd., Toronto & Terence Ortslan, TSO & Associates, Montreal, Canada

- 1:00 Future strategic paths for the mining companies in today's new environment,** Mark Bristow, Randgold Resources Ltd., St Helier, Channel Islands
- 1:25 Digging for victory: Geopolitical and supply side trends,** Paul Robinson, CRU Group, London, England
- 1:50 Fertilizers,** Daniel Solomon, CRU Group, London, England
- 2:15 Nickel,** Andrew Mitchell, Wood Mackenzie, Guildford, England
- 2:40 Diamonds,** Jim Pounds, Dominion Diamond Corporation, Yellowknife, Canada
- 3:05 PGMs and silver,** William Tankard, Thomson Reuters GFMS, London, England
- 3:30 Gold,** Martin Murenbeeld, Dundee Capital Markets, Victoria, Canada
- 3:55 Zinc,** Philip Macoun, CRU Consulting, London, England
- 4:20 Copper,** Paul Benjamin, Wood Mackenzie, London, England

Treasures of the Western and Central Tethys Metallogenic belt

Room 715

Chairs: Richard Herrington, Natural History Museum, London, England & Robert Moritz, University of Geneva, Geneva, Switzerland

- 1:00 Serbian and Macedonian ore deposits: Existing giants and recent discoveries,** Vertrees Canby, Freeport-McMoRan Exploration Corporation, Englewood, USA
- 1:25 Exploration, discovery and geology of the Rovina Valley porphyries, Romania,** Randall Ruff, Carpathian Gold Inc., Toronto, Canada
- 1:50 Overview of Zn-Pb-Ag deposits and exploration activity in Western Tethys: Balkan Cordillera?** Duncan Large, Reservoir Minerals Inc., Vancouver, Canada
- 2:15 Porphyry and epithermal gold deposits in western Anatolia, Turkey: Kişladağ and Efemçukuru as examples,** Timothy Baker, Eldorado Gold Corporation, Vancouver, Canada
- 2:40 Exploration and discovery of the Öksüt high-sulphidation epithermal gold deposit, Turkey,** Malcolm Stallman, Centerra Gold Inc., Ankara, Turkey
- 3:05 Laterite deposits: Potential unlocked by new technologies,** Richard Herrington, National History Museum, London, England

MONDAY, MARCH 7 MORNING

Opening Ceremonies

Room 701

8:30 – 9:15

Rodney Thomas, President, PDAC and welcoming remarks from the Honourable Jim Carr, Minister of Natural Resources, Shane Gottfriedson, Regional Chief, British Columbia Assembly of First Nations and Ed Sackaney, Knowledge & Wisdom Keeper.

Open to all pass types.

Keynote session: 2026 – the future of exploration and development

Room 701

Chairs: James Siddorn, SRK Consulting Canada Inc. & James Lusby, PricewaterhouseCoopers LLP, Toronto, Canada

9:20 Exploration strategies for the next decade and beyond, Jon Hronsky, Western Mining Services, Perth, Australia

9:45 Asteroid mining: Expanding the economy into the solar system, Chris Lewicki, Planetary Resources, Redmond, USA

10:10 Mine development, Jim Gowans, Arizona Mining Inc., Vancouver, Canada

Admission with pass colours listed below (unless otherwise noted)

Technical Program

Admission with pass colours listed below (unless otherwise noted)

- 10:35 The role of stream financing in mining capital markets**, Paul Brink, Franco-Nevada Corporation, Toronto, Canada
- 11:00 Indigenous inclusion: Resource development, not only Indigenous rights, but the “right” thing to do**, Sean Willy, Cameco Corporation, Saskatoon, Canada
- 11:25 Environmental management and mine closure**, Jeff Parshley, SRK Consulting US Inc., Reno, USA

Energy strategies, efficiencies: What is the right mix for your project?

Room 713

Chairs: Spencer Ramshaw, CAMESE, Mississauga & Adrienne Baker, Energy and Mines, Ottawa, Canada

- 9:10 Energy auditing of mining companies**, Adriaan Davidse, Deloitte Inc., Toronto, Canada
- 9:35 Play the CEEC trump card: Best practice in energy-efficient processing**, Ivan Mullany, Hatch, Mississauga, Canada
- 10:00 Diesel abatement at the exploration stage**, Bill Mercer, Avalon Rare Metals, Toronto, Canada
- 10:25 Realizing microgrid solutions for global mining operations**, Akram Elhenawy, Caterpillar Inc., Houston, USA
- 10:50 Diesel savings with hybrid plants: Are low oil prices an opportunity or a threat?** Andreas Boes, Siemens, Erlangen, Germany

Giant porphyry Cu-Au deposits: Important global resources for the future

Room 716

Chairs: Andrew Davies, Teck Resources Limited, Vancouver & Andrew Wurst, Barrick Gold Corporation, Toronto, Canada

- 9:10 Overview of global Cu-Au porphyry-type deposits**, Eric Jensen, Eurasian Minerals, Inc., Littleton, USA
- 9:35 The Malankhand copper-gold deposit: Is it really a porphyry copper?** Douglas Kirwin, Consultant, Pathumtani, Thailand
- 10:00 Application of hyperspectral core imaging to the orebody knowledge of giant Au-Cu porphyries**, Brigette Martini, Corescan, Denver, USA
- 10:25 Block caving Cu-Au porphyry**, Jarek Jakubec, SRK Consulting Canada Inc., Vancouver, Canada

- 10:50 Giant porphyry Cu-Au deposits: Significance to global copper supply-past, present and future**, Stuart Smith, Teck Resources Chile Limitada, Santiago, Chile

MONDAY, MARCH 7 AFTERNOON

Nevada gold deposits

Room 714

Chairs: Catherine Gignac, Gignac & Associates, Mississauga & Neil Gow, Consultant, Burlington, Canada

- 2:00 Origin and structural focus of gold deposits along the Carlin Trend**, David Rhys, Panterra Geoservices Inc., Vancouver, Canada
- 2:25 Goldrush project**, Kevin Creel, Barrick Gold Corporation, Toronto, Canada
- 2:50 The North Bullfrog deposit: A new Nevada gold discovery**, Jeffrey Pontius, Corvus Gold Inc., Denver, USA
- 3:15 Goldstrike: Rediscovering a large, Carlin-style gold system in southwestern Utah**, Moira Smith, Pilot Gold Inc., Vancouver, Canada
- 3:40 Midas and Fire Creek: Northern Nevada rift high-grade epithermal deposits**, Brian Morris, Klondex Mines Ltd., Reno, USA
- 4:05 Mineralization and exploration activity at the McCoy-Cove project, Battle Mountain, NV**, Chad Peters, Premier Gold Mines Limited, Battle Mountain, USA

Diamonds in southern Africa: Back to the beginning

Room 716

Chairs: Patricia Sheahan, Consultant, Toronto & Jennifer Pell, Peregrine Diamonds Ltd., Vancouver, Canada

- 2:00 Southern Africa diamond resources: A summary**, Mike De Wit, Tsodilo Resources Limited, Kleinmond, South Africa
- 2:25 Petra Diamonds: A world-leading independent southern Africa producer and explorer**, Jim Davidson, Petra Diamonds, Johannesburg, South Africa
- 2:50 Karowe diamond mine: A world-class source of large, exceptional diamonds**, John Armstrong, Lucara Diamond Corporation, Vancouver, Canada
- 3:15 Changes, consolidation and the future of the international diamond business**, John Bristow, Global Diamond Network, Hatfield, South Africa
- 3:40 The diamond industry in a perfect storm: Profitability, demand, transparency and synthetics**, Chaim Even-Zohar, Tacy Ltd., Caesarea, Israel

Coal? Yes, coal!

Room 711

Chairs: Richard Marston, Golder Associates Ltd., St. Louis, USA & Spencer Ramshaw, CAMESE, Mississauga, Canada

- 2:00 Worldwide economics: Thermal coal,** Michael Mewing, MC2 Company Pty Ltd., Brisbane, Australia
- 2:25 Worldwide economics: Metallurgical coal sector—costs, margins and implications for future prices,** Paul Robinson, CRU Group, London, England
- 2:50 Coal's path forward in a carbon-constrained world,** Steve Piper, SNL Energy, Boulder, USA
- 3:15 Queensland: The premier coal province of Australia,** David Green, Geological Survey of Queensland, Brisbane, Australia
- 3:40 Anthracite and the Arctos project, British Columbia, Canada,** Robin Goad, Fortune Minerals Limited, London, Canada

TUESDAY, MARCH 8 MORNING

Exploration Insights

Room 713

Chairs: John Sullivan, Excellon Resources Inc., Toronto, Canada & Ian Blakley, RPA UK, London, England

Selected from a call for abstracts, Exploration Insights will showcase high-profile technical, policy and academic presentations that offer insight into current and topical subjects. See page 29 for the full presentation schedule.

Open to all pass types.

What do mining analysts think about your company?

Room 714

Chairs: John Morganti, Lucca Advisors Inc., Vancouver & David Christie, Goodman & Company Investment Counsel, Toronto, Canada

- 9:10 Why don't they trust us? A retail investor's perspective on mining,** Brent Cook, Exploration Insights, Rockville, USA
- 9:35 What to look for in a large mining company,** Greg Barnes, TD Newcrest, Toronto, Canada
- 10:00 What to look for in a development company,** David Davidson, Paradigm Capital Inc., Toronto, Canada
- 10:25 What are the key attributes of a successful mineral exploration company?** Michael Gray, Macquarie Capital Markets Canada Ltd., Vancouver, Canada
- 10:50 What to look for in a project generator company,** Jim Mustard, PI Financial Corp., Vancouver, Canada

- 11:15 What to look for in a royalty/streaming company,** Dan Rollins, RBC Capital Markets, Toronto, Canada

Mining and integrated water management

Room 715

Chairs: Todd Hamilton, SRK Consulting Canada Inc. & Susan Ma, IBI Group, Toronto, Canada

- 9:10 The value of water,** Nadja Kunz, International Finance Corporation, Zurich, Switzerland
- 9:35 Managing business critical water risks,** Derek Chubb, ERM, Toronto, Canada
- 10:00 The true cost of groundwater,** Todd Hamilton, SRK Consulting Canada Inc., Toronto, Canada
- 10:25 Water and stakeholder engagement in Mongolia,** Veronica Nyhan Jones, International Finance Corporation, Washington DC, USA
- 10:50 Feasibility of saline mine water management in northern Canada,** Tom Sharp, SRK Consulting Canada Inc., Vancouver, Canada
- 11:15 Integrating mine water and waste management with opportunities in others sectors,** Corné Pretorius, Golder Associates Ltd., Vancouver, Canada

Zinc mines: Can global production be sustained?

Room 716

Chairs: Robert Valliant, Tri Origin Exploration Ltd., Aurora & Al Workman, Watts, Griffis and McQuat Limited, Toronto, Canada

- 9:10 An update on the geology and resources at the Kipushi Zn-Cu-Ag-Pb-Ge mine, Democratic Republic of the Congo,** David Broughton, Ivanhoe Mines Limited, Vancouver, Canada
- 9:35 The geology of the Kidd Creek deep orebodies, Mine D,** Thomas Gemmill, Ontario Geological Survey, Ministry of Northern Development and Mines, Sudbury, Canada
- 10:00 Trevali's Caribou zinc mine: A fresh start in a world-class mining district,** Mark Cruise, Trevali Mining Corporation, Vancouver, Canada
- 10:25 Zinkgruvan: A stratiform Zn-Pb-Ag-Cu deposit, Bergslagen, Sweden,** Lars Malmström, Zinkgruvan Mining AB, Zinkgruvan, Sweden
- 10:50 Exploration of the Teena zinc prospect: New insights for the discovery of shale-hosted zinc deposits,** Ian Sandl, Teck Resources Limited, Perth, Australia
- 11:15 Exploration and geology of the Navan carbonate-hosted Zn-Pb orebody, Ireland,** John Ashton, Boliden Tara Mines Limited, Navan, Ireland

Admission with pass colours listed below (unless otherwise noted)

Technical Program

Admission with pass colours listed below (unless otherwise noted)

TUESDAY, MARCH 8 AFTERNOON

Specialty minerals and metals for energy storage

Room 713

Chairs: Don Bubar, Avalon Rare Metals Inc. & Don Hains, Hains Engineering Co. Ltd., Toronto, Canada

- 2:00 Who controls the lithium ion battery supply chain?** Simon Moores, Benchmark Minerals, London, England
- 2:25 Lithium, cobalt and related metals in the global battery market,** Jon Hykawy, Stormcrow Capital Ltd., Toronto, Canada
- 2:50 Cathode materials for lithium batteries: Raw material for their synthesis & Nemaska's LiOH project,** Jean-Francois Magnan, Nemaska Lithium Inc., Quebec City, Canada
- 3:15 Development of the Western Lithium process,** Jay Chmelauskas, Western Lithium USA Corporation, Vancouver, Canada
- 3:40 Energy applications offer growth potential for tin,** Peter Kettle, International Tin Research Institute, St Albans, England

Feasibility study vs. reality: An investor perspective

Room 714

Chairs: Shawn Campbell, Goldcorp Canada Ltd., Vancouver & Samuel Pelaez, U.S. Global Investors, Toronto, Canada

- 2:00 NI 43-101 engineering reports from 2015: How did they measure up?** Tim Oliver, Consultant, Tucson, USA
- 2:25 Stibnite, Idaho: A fireproof gold project,** Stephen Quin, Midas Gold Corp., Vancouver, Canada
- 2:50 Reality cheques: From studies to constructed,** Lawrence Smith, Lawrence Devon Smith & Associates, Toronto, Canada
- 3:15 A private equity's technical due diligence,** Allan Brownrigg, Resource Capital Funds, Denver, USA
- 3:40 The feasibility study as a diagnostic tool of project success,** Tom Bruington, Sandstorm, Vancouver, Canada

The China Factor: Commodity prices and the mining finance alternative

Room 715

Chairs: Keith Spence, Global Mining Capital Corp., Toronto, Canada & Yonglian Sun, SRK Consulting (China) Ltd., Beijing, China

- 2:00 An overview of Chinese global outbound investments in mining,** Keith Spence, Global Mining Capital Corp., Toronto, Canada
- 2:05 China: Is the slowdown a soft landing or a hard landing?** Chen Manjiang, Bank of China International, Beijing, China
- 2:25 China's impact on mining commodity markets: A future perspective,** Philip Macoun, CRU Group, London, England
- 2:50 A macroeconomic update on China and how it affects mining,** Amy Cheng, Huarong International Financial Holdings Limited, Central, Hong Kong
- 3:15 Chinese companies transacting in Canada: Deal's closed, now what?** Michael Laffin, Blake, Cassels & Graydon LLP, Calgary, Canada
- 3:40 The outbound mining investment strategies of Zijin,** George Fang, Zijin Mining Group Co., Ltd., Xiamen, China

Geophysics: New technologies and case histories

Room 716

Chairs: Jean Legault, Geotech Ltd., Aurora & Robert Hearst, AREVA Resources Canada, Saskatoon, Canada

- 2:00 Groundfloor EM,** Brian Bengert, Vale Canada Limited, Mississauga, Canada
- 2:25 Low-cost borehole geophysical logging during or just after drilling: The developing technology of downhole shuttle probe survey systems,** Alan King, Geoscience North, Sudbury, Canada
- 2:50 Carlin Trend, Nevada: New discoveries, methodologies and perspectives,** James Wright, J. L. Wright Geophysics, Spring Creek, USA
- 3:15 Geophysical response of the Atlántida porphyry Cu-Au deposit: An undercover discovery,** Matthew Hope, First Quantum Minerals Ltd., Santiago, Chile
- 3:40 Using the Mag Tensor: More geology, less ambiguity,** Wayne Stasinowsky, Spectrem Air Pty Limited, Johannesburg, South Africa
- 4:05 Three-dimensional inversion and interpretation of AEM data over rough topography, Laos,** Leif Cox, Technolmaging, LLC, Salt Lake City, USA

WEDNESDAY, MARCH 9 MORNING

The evolving landscape of uranium

Room 713

Chairs: Jonathan Lafontaine, Consultant, Lévis & Al Workman, Watts, Griffis and McOuat Limited, Toronto, Canada

- 9:10 New applications and reactor designs, CNL's work in SMRs and the future of nuclear technology,** Bhaskar Sur, Atomic Energy of Canada Limited, Ottawa, Canada
- 9:35 The Cigar Lake operation: A world-class deposit achieves commercial production,** Cliff Revering, Cameco Corporation, Saskatoon, Canada
- 10:00 Areva's Canadian and global perspectives,** Gilbert Stein, Areva Mines, Paris, France
- 10:25 Context to the Patterson Lake area Southwest Athabasca Basin uranium play,** Gary Delaney, Saskatchewan Geological Survey, Regina, Canada
- 10:50 South Australian uranium development,** Steve Hill, Geological Survey of South Australia, Adelaide, Australia
- 11:15 Scalability of ISR development and its relationship to optimized project funding,** Ralph Knode, Peninsula Energy Limited, Sundance, USA
- 11:40 Mkuju River, Tanzania, open pit and ISR potential,** Feroz Ashraf, Uranium One Inc., Toronto, Canada

Raising capital: Will new prospectus exemptions help raise capital and lower regulatory costs?

Room 715

Chairs: Brian Prill, BLP Law Professional Corporation & James McVicar, Dentons LLP, Toronto, Canada

- 9:10 Overview of the new prospectus exemptions,** Mark Wheeler, Borden Ladner Gervais LLP, Toronto, Canada
- 9:35 Who are the new non-accredited investors?** Craig Skauge, National Exempt Market Association, Calgary, Canada
- 10:00 The decision to go public: Is there a need?** Zulf Karim, TMX Group, Toronto, Canada
- 10:25 How to organize an offering memorandum financing,** Bruce Hibbard, Bennett Jones LLP, Calgary, Canada
- 10:50 How to organize a crowdfunding financing,** Peter-Paul Van Hoeken, Frontfundr, Vancouver, Canada

New discoveries and developments

Room 716

Chairs: Charles Beaudry, Consultant & Bill Mercer, Avalon Rare Metals Inc., Toronto, Canada

- 9:10 The Amaruq discovery: Agnico Eagle's near-term future in Nunavut,** Guy Gosselin, Agnico Eagle Mines Limited, Quebec, Canada
- 9:35 Transformational growth and cost improvement at Newmont's Tanami operations, central Australia,** Matthew Baggott, Newmont Asia Pacific, Perth, Australia
- 10:00 Ixtaca gold-silver deposit,** Morgan Poliquin, Almaden Minerals Ltd., Vancouver, Canada
- 10:25 Chukaru Peki high-sulfidation porphyry Cu-Au deposit, Serbia,** Dejan Koželj, Freeport-McMoRan Exploration Corporation, Bor, Serbia
- 10:50 What happened to them? Success or failure? A retrospective on the New Discoveries sessions from 1995 to 2015,** Bill Mercer, Avalon Rare Metals Inc., Toronto, Canada
- 11:15 Hot Maden high-grade gold-copper deposit Discovery to maiden resource within six months,** Eric Roth, Mariana Resources Ltd., Sydney, Australia

Targeted Geoscience Initiative 4 (TGI-4)

Room 717

Chairs: Wouter Bleeker & Mike Villeneuve, Geological Survey of Canada, Ottawa, Canada

The Targeted Geoscience Initiative 4 (TGI-4) is a collaborative Canadian federal geoscience program that provides industry with the next generation of geoscience knowledge and innovative techniques, which will result in more effective targeting of buried mineral deposits. See page 47 for the full presentation schedule.

Open to all pass types.

SUNDAY, MARCH 6

Room 803

Opening remarks

8:25 – 8:30 am

Anne Belanger, PDAC Coordinator, Geoscience & Sustainability Programs

Social risk management in exploration projects, Mexico: Unlocking the future mine

8:30 – 9:30 am

Organizer: Goldcorp Inc.

Moderator: Michael Harvey, Goldcorp Latin America

Speakers:

Mathieu Vallart, Goldcorp Latin America
Alfredo Phillips, Torex Gold Resources Inc.
Irma Potes Gonzalez, Grupo Mexico

Mining, exploration and the carbon driven economy

9:30 – 10:30 am

Organizer: iCompli Sustainability, division of BPA Worldwide

Speakers:

Susan Sheehan, iCompli Sustainability
Gray Taylor, Gray Taylor Law
Kyle Stanfield, New Gold Inc.
Chris Fowle, CDP

Managing CSR risk in M&A transactions: What juniors need to be thinking when selling

10:30 – 11:30 am

Organizer: Fasken Martineau

Speakers:

Kevin O'Callaghan, Fasken Martineau
Craig Ford, Corporate Responsibility Solutions Inc.
Brent Bergeron, Goldcorp Inc.

Sustainability performance: What majors think of juniors

11:30 am – 12:30 pm

Organizer: Prospectors & Developers Association of Canada

Speaker: To be confirmed

Preparing for the rebound: Strategic stakeholder engagement

1:30 – 2:30 pm

Organizer: rePlan, an ERM Group Company

Moderator: Emily Nunn, rePlan, an ERM Group Company

Speakers:

Michael Fahrbach, Glencore International plc
Andrew Cormier, Alamos Gold Inc.
Pablo Castanos, Goldcorp Inc.
Etienne Lamy, Rio Tinto Ltd.

Driving value by prioritizing investments for sustainable strategies in mining: Schulich International Case Competition Finale

2:45 – 4:45 pm

Organizer: Schulich School of Business

Speakers: Masters of Business Administration students and future leaders with an interest in mining and sustainability from universities from around the world.

MONDAY MARCH 7

Room 717

Corruption and bribery: Using an effective compliance program to manage risk

9:00 – 10:00 am

Organizer: Export Development Canada, Transparency International Canada and the Global Compact Canada Network

Speakers:

Peter Dent, Deloitte Forensics
Jonathan Drimmer, Barrick Gold Corporation, Global Compact Network Canada
Martin Mueller, Transparency International Canada
Signi Schneider, Export Development Corporation

The Extractive Sector Transparency Measures Act (ESTMA)

10:00 – 11:00 am

Organizer: Natural Resources Canada

Speakers:

David Fuss, Natural Resources Canada
Mark Pearson, Natural Resources Canada
John Mullaly, Goldcorp Inc.

Artisanal mining and the exploration perspective

11:00 am – 12 noon

Organizer: Prospectors & Developers Association of Canada

Moderator:
Dorothee Gizenga, Diamond Development Initiative

Speakers:
Stephen Burega, Rakai Resources Ltd.
Pavell Gálvez, Minera Yanaquihua SAC
Marcello Veiga, University of British Columbia

Getting it right: How the Office of the Extractive Sector CSR Counsellor and the National Contact Point can help companies address CSR challenges abroad

2:00 – 3:00 pm

Organizer: Global Affairs Canada

Speakers:
Jeffrey Davidson, Global Affairs Canada
Alanna Heath, Barrick Gold Corporation

Responsible outward investments of Chinese mining companies: The establishment and implementation of Chinese Outward Mining Guidelines

3:00 – 4:30 pm

Organizer: Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) and the China Chamber of Commerce of Metals, Minerals and Chemicals Importers and Exporters

Speakers:
Speaker to be confirmed, Ministry of Land and Resources of the People's Republic of China
Chen Feng, China Chamber of Commerce of Metals, Minerals and Chemicals Importers and Exporters
Sun Lihui, China Chamber of Commerce of Metals, Minerals and Chemicals Importers and Exporters
Speaker to be confirmed, China National Offshore Oil Corporation
Speaker to be confirmed, The World Bank
Philipp Kruschel, EMM Network, GIZ

The Beyond Zero Harm Framework: Measuring community well-being

4:30 – 5:15 pm

Organizer: Yamana Gold Inc.

Speaker:
Aaron Steeghs, Yamana Gold Inc.

Panelists:
Michelle Hassen, rePlan, an ERM Group Company
Ed Opitz, Kinross Gold Corporation

TUESDAY MARCH 8

Room 718

Bridging the inevitable talent gap: CEO Panel

4:00 – 5:00 pm

Organizer: Prospectors & Developers Association of Canada

Moderator:
Patrice Merrin, Glencore

Panelists:
Julie Lassonde, Calibre Mining Corp.
Daniella Dimitrov, Orvana Minerals Corp.
Geoff Burns, Pan American Silver Corp.

Each panelist will be asked to provide an initial overview of the topic, followed by a moderated discussion. There will also be an interactive question and answer session with the audience.

"100 plus reasons to celebrate women in mining" Reception

Organizer: Women in Mining Canada with Women in Mining UK, Prospectors & Developers Association of Canada and Women Who Rock

5:00 – 6:00 pm

Join us in celebrating the cultural, social and economic achievements of women in mining. Meet and network with like-minded men and women, and celebrate the 100 women recognized this year by WIM UK in the 100 Global Inspirational Women in Mining project.

Aboriginal Program

Admission with pass colours listed below (unless otherwise noted)

MONDAY, MARCH 7

Collaborative projects for Indigenous community development: Canadian and international experiences

Room: 714 9:15 am – 12 noon

Chair: Jonathan Fowler, J. A Fowler and Associates Inc.

The PDAC's Aboriginal Affairs and Corporate Social Responsibility (CSR) programs are co-hosting a session to explore key issues and partnerships between exploration and mining companies and Indigenous communities around the world. Specifically, panelists will present community development initiatives and programs established collaboratively between mineral companies, Indigenous communities and non-governmental organizations.

The discussion will centre on the origins and impacts of these initiatives, particularly how the partners have worked together towards the common goal of generating social benefits. The session will provide insight into operating in different political, social and cultural contexts around the world, as well as highlight some of opportunities and challenges when building relationships and developing partnerships.

9:15 Welcome

9:20 Panel Presentations

Using transformative, corporate-NGO, Native American community partnerships to create sustainable social benefits in north-eastern Nevada

Todd Minerson, Executive Director, White Ribbon and CEO, Parker P. Consulting
Russell Abel, Stop Violence Against Native Women Program, Men's Re-Education Group Facilitator, Shoshone-Paiute Tribes of the Duck Valley Reservation, Nevada
Brian Mason, Program Manager, Native American Affairs, Barrick Gold of North America

10:05 Aboriginal Mining and Skilled Trades Entry Program (AMSTEP)

Gordon Kakegamic, AMSTEP Project Manager, Oshki-Pimache-O-Win Education & Training Institute
Adele Faubert, Manager, Aboriginal Affairs, Goldcorp Musselwhite Mine
Theoren Chikane, AMSTEP Graduate, Mill Operations Trainee, Goldcorp Musselwhite Mine

10:50 Promoting community development in the eastern Democratic Republic of the Congo

Martin Jones, Chairman, Banro Foundation, Banro Corporation

11:35 Closing remarks and Q&A

The Aboriginal Forum: Sharing knowledge, enhancing participation

Room 701 2:00 – 4:30 pm

Chair: Michael Fox, Fox High Impact Consulting

The Aboriginal Forum brings together mineral industry practitioners, Aboriginal communities and companies, and governments to share experiences and exchange information. The event is a venue for discussion on key and emerging issues, including creating mutually beneficial relationships in order to foster a successful mineral industry in Canada and generate opportunities for Aboriginal peoples. The 2016 Aboriginal Forum will include a presentation by the Native Women's Association of Canada (NWAC) on its *Barriers and Opportunities in the Resource Development Sector* project, as well as a panel with Aboriginal women who will share their experiences with mineral development. The session will also feature a case study presentation on the topic of Traditional Use and Knowledge and its incorporation into environmental assessments.

2:00 Welcoming and blessing

Ed Sackaney, Knowledge & Wisdom Keeper

2:05 Bridging the gap through dialogue

Beverly Blanchard & Sydney Ducharme, Native Women's Association of Canada

2:35 Indigenous women and mineral development: Impacts and opportunities

Panelists:

Colleen Durocher, Cameco Corporation/Lac La Ronge Indian Band
Maria Vandenbrand, New Gold/Métis Nation of Ontario
Cathy Towtongie, Nunavut Tunngavik Inc.
Kateri Skaarup, Origin Recruitment and Training/Fort William First Nation
Stefanie Recollet, Wahnapiatae First Nation

Moderator: Lana Eagle

3:45 Traditional use and knowledge in environmental assessment: Grassy Mountain Mine and the Blackfoot landscape

Mike Oka, Consultation Manager, Kainai Nation
JJ Shade, Traditional Land Use and Occupancy Specialist, Kainai Nation
Steve Mallyon, Managing Director, Riversdale Resources
Laureen Whyte, Merjent LP
Kai Scott, Dialectic Research Ltd.

The session will be followed by a networking reception, sponsored by Fasken Martineau DuMoulin LLP from 4:30 – 5:30 pm.

Skookum Jim Award Presentation – Awards Evening

Fairmont Royal York, Canadian Room 6:00 pm

The Skookum Jim Award recognizes and honours Aboriginal individuals and businesses who demonstrate exceptional achievement and/or service in an Aboriginal-run service business for the Canadian mining industry or a Canadian Aboriginal exploration or mining company, or have made a significant individual contribution to the mining industry.

Admission with Awards ticket. Tickets \$125 each.

TUESDAY, MARCH 8

Aboriginal law, Indigenous frameworks and regulatory regimes: Examining the evolving landscape

Room: 717 9:00 am – 12 noon

Chair: Kenning Marchant, The Marchant Practice

Jurisprudence related to Aboriginal rights in Canada and regulatory initiatives continue to evolve over time, providing clarity in some areas while raising additional questions and ultimately contributing to shaping and reshaping the landscape of the mineral sector. Increasing dialogue related to various Indigenous frameworks such as Free, Prior and Informed Consent (FPIC) also contribute to the way in which companies and communities perceive and understand their roles in the sector. This session will examine some of the recent legal decisions, frameworks and regulatory initiatives, as well as key challenges and opportunities that arise for mineral companies and Aboriginal communities in relation to resource development.

9:00 Welcome

9:05 Perspectives and positions on Free, Prior and Informed Consent (FPIC) in Canada

Understanding and incorporating Free, Prior and Informed Consent in your organization
Sandra Gogal, Miller Thomson LLP

Implementing FPIC in Canada: challenges and opportunities when law lags behind reality
Jessica Orkin, Goldblatt Partners LLP

9:35 Panel discussion / Q&A

10:05 Break

10:15 Revenue transparency and the disclosure of payments to Aboriginal communities: Helpful tool or impending obstacle?
Chuck Willms, Fasken Martineau DuMoulin LLP
Tom Ormsby, De Beers Canada
Chief Jason Gauthier, Missanabie Cree First Nation

11:15 An update on key legal cases in Canada: The current landscape in Aboriginal law

11:15 Aboriginal title claims involving private parties
Keith Bergner, Lawson Lundell

11:35 Mineral dispositions and fulfilling the duty to consult – Challenges for First Nations, the Crown, and proponents
Cynthia Westaway, Devlin Gailus Westaway Law

Exploring Aboriginal procurement and joint venture business models in the mineral sector

Room 717 2:00 – 5:00 pm

Chair: Michael Fox, Fox High Impact Consulting

The mineral industry and Aboriginal communities continue to explore ways to develop positive relationships that translate into mutually beneficial outcomes – successful projects and long-term socio-economic development opportunities for communities. Throughout the project cycle, from mineral exploration to mine development and operations, companies and communities have identified a number of strategies for generating partnerships, building relationships and maximizing benefits. In particular, mineral projects can provide the opportunity to be involved in the sector and contribute to the socio-economic development of Aboriginal communities. These opportunities have typically involved training, education, business development, contracting and employment, community development and financial considerations. This session will include presentations and case studies that focus on Aboriginal procurement and joint venture models.

2:00 Welcome

2:05 Aboriginal procurement across the Canadian mining landscape

Anthea Darychuk, Engineers Without Borders
Karen Travers, Canadian Council for Aboriginal Business
Sean Wily, Cameco Corporation

2:35 Economic Development Corporation – Case Study

Speaker to be confirmed

3:05 Break

3:15 Examining joint venture agreements with Aboriginal communities

Michelle Tanguay, Argonaut Gold
Tom Paddon, Baffinland

3:35 The making of a successful environmental consulting joint venture (RTEC) with the Tahltan Development Corp

Clem Pelletier, Managing Director RTEC and Senior Technical Advisor ERM Consultants Canada
Gerry Merkle, President Tahltan Nation Development Corp.

3:50 Title to be confirmed

Shawn Batise, Wabun Tribal Council

4:05 The partnership imperative: IMG-Golder's model for meaningful joint ventures in northern Canada
Sarah Varino, Social Impact Assessment Lead, Golder Associates Ltd.

4:20 Title to be confirmed

Matthew McKelvie, Director, Business Development, ESS Compass Group

4:35 Q&A

Admission with pass colours listed below (unless otherwise noted)

 **GOLDCORP**

Attractions (NEW!)

Welcome to Trade Show North!

PDAC invites you to experience Trade Show North! This exhibit floor features organizations and governments promoting the latest technology, products, services and mining jurisdictions as well as networking opportunities, and special featured displays.

Attendees can visit Trade Show North with all pass types including the complimentary Investors & Select Presentations Pass.

The Kirwin Collection, Royal Ontario Museum

Booth #6529N

The Kirwin Collection was built from hundreds of deposits and localities around the world, and is truly a geological library.

The Kirwin Collection was built to create a resource that would be of value in teaching both the fundamentals and the finer points of the geological processes that form the mineral deposits on which we depend.

The acquisition of the Kirwin Collection was made possible by the generous support of BMO Financial Group, Yamana Gold Inc., Douglas Kirwin, Louise Hawley Stone Charitable Trust, Hatch, Rock of Ages Gala 2011, The Bogden Family, Scott and Ellen Hand, Francine and Robert Ruggles, Prospectors & Developers Association of Canada, Christopher Wansbrough, AMC Consultants, Women in Mining Toronto.

Display Sponsored by

The Royal Canadian Mint: 100 years of history!

Booth #6801N

Visit this display and examine featured bullion and numismatic coins. This year the Mint will also introduce Bullion DNA – the most secure bullion coins in the world! A proprietary anti-counterfeiting technology that quickly authenticates registered Gold Maple Leaf (2014 and later) and Silver Maple Leaf (2015 and later) coins. Bring your registered Maple Leaf coins to PDAC and have them validated in the Mint's Bullion DNA Reader device, or just drop by to watch an informative and interactive demonstration.

The Royal Canadian Mint is a Crown corporation founded in 1908 producing circulation, numismatic and bullion coins for the domestic and international markets. The Mint operates full-service gold and silver refineries with a range of services from refining and assaying to secure storage and exchange-traded receipts. For more information on the Royal Canadian Mint, visit www.mint.ca

The De Beers Group of Companies Diamond Display

Booth #6807N

De Beers is the world's leading diamond company, with unrivalled expertise in the exploration, mining and marketing of rough diamonds since 1888. We are pleased to showcase a collection of De Beers Canadian rough diamonds, as well as an assortment of De Beers Canadian cut and polished diamonds at PDAC 2016. The display will also feature Canadian kimberlite to illustrate diamond exploration and mining in Canada.

De Beers has been active in Canada for more than 50 years, growing from a small group of geologists in the field to having multiple offices and operations in the country. For more information about De Beers in Canada, please visit www.canada.debeersgroup.com

Relaxation Corner: Complimentary massage

Booth #6811N

Relax, refresh and rejuvenate at PDAC's Relaxation Corner!

Visit Trade Show North and receive a 15 – 20 minute complimentary massage from Canada's leading mobile massage provider – Onsite Health.

The massage is given in a specially-designed chair which offers ultimate comfort. The session will focus on back, neck, shoulders, head, arms and hands, and will be provided through clothing.

Hours of operation:

Sunday, March 6 – Tuesday, March 8 10:00 am – 5:00 pm
Wednesday, March 9 9:00 am – 12 noon

Admission with pass colours listed below (unless otherwise noted)

Attractions (NEW!)

Admission with pass colours listed below (unless otherwise noted)

Investors Exchange

Visit the Investors Exchange and meet with over 350 mining companies and financial institutions. While touring the Investors Exchange, be sure to check out the Tesla Model S display, Mining Marketplace and Core Shack.

TSX Open & Close

Booth #2917

Toronto Stock Exchange and TSX Venture Exchange are pleased to be opening and closing the market from the Investors Exchange floor.

The exchanges are proud to be home to over 50% of the world's public mining companies whose presence is truly global through their work exploring and producing in a large range of commodities.

Visit the TMX booth to watch delegations from around the world open and close the market.

Market Open

Monday, March 7 – Wednesday, March 9 9:30 am

Market Close

Monday, March 7 – Tuesday, March 8 4:00 pm

Tesla Model S Exhibit

Booth #3321

While touring the Investors Exchange, check out the Tesla Model S electric car! Learn about the key mined products that are used in these environmentally friendly cars.

Stop by and meet Gianni Kovacevic, author of *My Electrician Drives a Porsche?* Gianni will start his Realistic Environmentalist North America Tesla Tour at PDAC 2016. He will drive his Tesla from Toronto, Canada all the way to Tesla headquarters in Palo Alto, California.

Visit www.kovacevic.com for more information about his tour.

Core Shack

Core Shack is now located in the Investors Exchange! Get up close and personal with projects that are generating exciting new drilling results.

For a list of Core Shack exhibitors, see page 77.

Mining Marketplace

Visit this special feature area within the Investors Exchange where Trade Show eligible companies are exhibiting.

For a list of Mining Marketplace exhibitors, see page 76.

Capital Markets Program

Canada's capital markets play a critical role in supporting the financing of mineral exploration in Canada and around the world. As the national voice for the Canadian exploration industry, the PDAC conducts research and advocacy to ensure Canada's capital markets remain competitive and innovative. The PDAC also advocates for Canadian jurisdictions to adopt fiscal and regulatory environments that make Canada an attractive place to explore.

The Capital Markets Program is intended to create a forum for learning and dialogue on a range of topics related to the financing of mineral exploration.

TUESDAY MARCH 8

Capital Markets Open Program: Future of mineral exploration financing

9:00 am – 4:30 pm

Room 711

The Capital Markets Program will focus on evolving structural changes to the traditional mineral finance model. Several factors are having a profound impact on how mining companies raise capital to fund exploration, including the current macroeconomic realities, changing investor demographics and capital markets regulations.

Recognizing the early signs of improving metals and mining markets: A global banker's perspective

9:00 – 10:30 am

This year PDAC is privileged to hold a keynote session that provides a global perspective on mining finance from the major Canadian banks. The mining sector is known to go through upturns and downturns and dovetails closely with commodity price cycles and the broader macroeconomy. We are currently in a commodity downturn and forecasts indicate that the condition for an improved outlook is not imminent. How is the sector coping in this challenging financing environment and when will we see a turnaround?

Chair: John Bridges, JP Morgan

Speakers: Egizio Bianchini, BMO Capital Markets; Peter Collibee, Scotia Capital Inc.; Rick McCreary, TD Securities; David Shaver, RBC Capital Markets

Demographic shifts: How they have changed capital raising for junior mining companies

11:00 am – 12 noon

The demographic composition of traditional investors in mineral exploration is changing. Appetite for risk has waned and competing investment products with similar risk characteristics as exploration, for example, leveraged structured products, have drawn high-risk/high-reward investment elsewhere. How can mineral exploration, which depends on risk capital, adjust to the changing investor landscape?

Chair: Brian Prill, BLP Law Professional Corporation

Speakers: Rory S. Godinho, Boughton Law Corporation; Michael White, IBK Capital Corporation; Vijay Jog, Carleton University

Canadian capital markets: A new regulator and new prospectus exemptions

1:00 – 3:00 pm

This presentation is broken down into two sections. The first section is on the new securities regulator in Canada – the Capital Market Regulatory Authority – and how it will impact mining issuers as its consolidated regulations are implemented. The second section will focus specifically on two recent innovations – the Offering Memorandum prospectus exemption and the Crowdfunding regime – and how mining issuers can benefit from them.

Chairs: Jim Borland, Co-Chair PDAC Securities Committee; Brian Prill, BLP Law Professional Corporation

Capital Market Regulatory Authority

Speakers: Lawrence Ritchie, Osler, Hoskin & Harcourt LLP; Denis Frawley, Ormston List Frawley LLP

An Overview of New Exemptions

Speakers: Rick Whiler, Ontario Securities Commission; Maria Carelli, Ontario Securities Commission

Offering Memorandum Exemption for mining

Speakers: Greg Gosson, Amec Foster Wheeler James McVicar, Dentons Canada LLP

Equity Crowdfunding for Mining

Speakers: Al Wiens, Wildeboer Dellelce LLP; Chad Williams, Red Cloud Mining Capital

Financing exploration through fiscal incentives

3:30 – 4:30 pm

Several macroeconomic factors are impacting the attractiveness of investing in the mineral exploration business. Although these factors are often beyond the control of any one actor, governments have a role to play through the use of fiscal policy. As we experience a decline in the availability of risk capital from investors, there is a role of fiscal incentives in generating revenue streams that can sustain exploration in Canada through the downturn. Is the exploration sector taking full advantage of these incentives?

Chair: Tom King, KPMG LLP

Speakers: Teri Kirk, The Funding Portal; Lisa Davis, PearTree Financial; Shawn Ryan, Independent Prospector

Where Discovery Never Stops

Whether it's finding new deposits or pioneering new technologies to extract gold, at Barrick we never stop pushing the boundaries of discovery.

Between 1990 and 2014, our geologists found more than 130 million ounces of gold at an average discovery cost of just \$25 per ounce.

In doing so, they've unearthed some of the most exciting gold discoveries in recent decades, including Lagunas Norte, Goldrush and Alturas.

We have just one question for them: What's next?

Visit us at booth 2434 in the PDAC Investors Exchange and discover the answer.

**Mining Matters Hockey
Tournament Presented by**

IRWIN LOWY | LLP

**Scotiabank Pond at
Downsview Park, Toronto**

**Saturday, March 5, 2016
8:00 am – 5:00 pm**

The Mining Matters Hockey Tournament is an important Mining Matters annual fundraising event. It combines intensity and fun, and brings members of the minerals industry together in support of Mining Matters goal to educate students, teachers and the public about Earth science and the importance of mineral resources.

Teams will compete to see their name engraved on the coveted Caracle Cup! Players include members of the mineral exploration and mining industries: investment banking firms, mining companies, lawyers, engineers, equipment manufacturers and consultants to the mining industry. The day also features a \$10,000 Shoot for Loot challenge and fabulous raffle prizes. Come out and cheer on your favorite team!

Mining Matters wishes to recognize industry partners generously sponsoring the Mining Matters Hockey Tournament.

SUNDAY, MARCH 6

Surviving the down turn: Fundamentals of reorgs, workouts and restructurings for North American exploration and mining companies

Parsons Behle & Latimer

Room 206D 8:00 am – 12 noon

Joint presentation by the law firm of Parsons Behle & Latimer and the financial advisory firm of Rothschild Inc.

The presentation will consist of three revolving one-hour sessions each followed by Q&A's that will cover essential and practical advice for steering through these complex arrangements. The presentation will be very helpful to companies in distress or those seeking to avoid distress.

Registration is preferred, but not required. To register, email jcastor@parsonsbehle.com

Australia: Invest with confidence, Australia Minerals

Australia Minerals

Room 205D 9:00 am – 12 noon

Australia has a long history of successful mineral exploration and mining and yet remains one of the world's biggest untapped exploration markets. With geological potential across a diverse range of mineral commodities, up to 80% of the country is yet to be properly explored. There's every reason to expect it to be equally prospective.

This seminar will bring together the leaders of Australia's federal, state and territory geological surveys and government investment experts to connect investors with the information they need to invest with confidence in mineral exploration in Australia.

Overview presentations and panel discussions will allow plenty of time for questions and answers. Attendees will hear about investment-ready opportunities and have the chance to discuss prospects in detail with speakers.

8:45 am Meet and greet, tea and coffee

9:00 am Welcome address

Overview presentations

9:05 am Australia's policy, regulatory and investment landscape

Portia Maier, Senior Trade and Investment Commissioner, Australian Trade Commission

9:20 am Commodity overview

James Johnson, Deputy CEO and Chief of Resources Division, Geoscience Australia

9:35 am State and territory overview presentations (5 minutes each)

10:25 am Morning tea
Q&A panel sessions

10:40 am Panel 1 – Geoscience initiatives in support of mineral exploration in Australia

Chair: Steve Hill, Director / Chief Government Geologist, Geological Survey of South Australia

11:10 am Canadian company case study of successful investment in Australia

11:20 am Panel 2 – Non-geoscientific impediments to, and levers for, discovery and investment

Chair: Ian Scrimgeour, Executive Director, Northern Territory Geological Survey

11:50 am Closing remarks

All are welcome. Registration is not required.

Greenland Day: Doing business and investing in Greenland

Government of Greenland, Greenland Business Association, Arctic Cluster of Raw Materials

Room 206B 12 noon – 5:00 pm

Greenland is home to a vast potential of untapped mining opportunities. Please join the Government of Greenland, Greenland Business Association, Arctic Cluster of Raw Materials and The Trade Council Toronto in hosting a 360-degree view of mining in Greenland.

The program will host sessions related to the latest mining regulations, mineral prospectivity and geological findings as well as on investing in Greenland in today's mining market – with key notes from the Fraser Institute, Hatch, IBK Capital and the Sentient Group. Also we'll be joined by CEOs of Greenland's top mining companies – come hear what it is like to mine in Greenland directly from those who are there.

A delegation of Greenlandic companies will be in attendance to discuss the latest opportunities in Greenland, and find partners interested in pursuing opportunities in Greenland and beyond.

Guests of the Greenland Day program are invited to attend the Greenland reception to follow the presentations, by obtaining a ticket at the registration between 12 noon and 5:00 pm.

Registration is required. To register, email miabro@um.dk

The annual South African mining investment seminar

South African Department of Mineral Resources

Room 206D 2:00 – 6:00 pm

South Africa has a long history of mining expertise and remains the wealthiest mining jurisdiction in the world. The country has developed progressive and internationally competitive mining policies since the inception of its democratic dispensation. Come experience first-hand high-level discussions at the annual South African mining investment seminar, at which the Minister of Mineral Resources, together with key stakeholders from industry and organised labour will be engaging on opportunities and challenges facing the South African mining industry.

The seminar will reaffirm South Africa's commitment to growing and sustaining the mining industry through innovation and further confirm the country as a favourable investment destination. This is truly an event you don't want to miss!

2:00 pm Seminar

5:00 pm Cocktail networking session

Registration is required. To register, email smiller@thedti.org or call 416 730 7284.

Managing catastrophic hazards

ERM

Room 205D 3:00 – 5:00 pm

Recent high-profile catastrophic events have resulted in fatal consequences to workers, contractors and members of the community. These events can also impact the environment and livelihoods of local communities. Beyond direct physical outcomes, these events have the potential to damage stakeholder trust, generate new socio-economic challenges for affected communities, and severely influence shareholder value.

The scale of these impacts might render a mining site or operation incapable of delivering critical business functions for some time, leading to business disruption and loss of revenue. New strategies and more deliberate approaches have now begun to migrate into the industry from other sectors, including oil and gas.

Leading mining companies are now asking themselves important questions:

- Are there blind-spots in current thinking and approaches to risk and catastrophic hazard management?
- Is catastrophic event and scenario planning sufficiently mature to identify and understand high consequence / low likelihood events?
- How do we know if current controls and the judgements of our operators align with recent advances in expectations from board members?
- How can we provide our stakeholders the assurance that these "unique" risks are understood and being responsibly managed?

This session will feature a panel of leaders from various sectors. Participants will be provided with an opportunity to examine cross-industry practices and learn from others' experiences in maintaining secure and credible assets.

Refreshments will be provided after the panel, and attendees will have the opportunity to talk with panelists and colleagues from other organizations.

Registration is preferred, but not required. To register, email navita.khokha@erm.com

MONDAY, MARCH 7

Invest in Canada's North

Canadian Northern Economic Development Agency (CanNor), Northern Projects Management Office (NPMO)

Room 201D 8:00 am – 12 noon

Canada's North is a diverse region with nearly 40 percent of the country's land mass and the Arctic Ocean. Its resource potential has made it one of the most attractive destinations for domestic and international investment.

CanNor, in collaboration with the three northern territories (Nunavut, Northwest Territories and Yukon) will be hosting this half-day seminar.

The seminar will showcase the exploration and mining potential in Canada's North, its geology, the unique landscape for environmental assessment and regulatory permitting, and the role of Indigenous people in resource development.

Government perspective: Canada's North is open for business

This session will explore northern resource development opportunities in Canada's territories and provide public sector perspective on why Canada's North is an attractive invest destination.

Presentation Rooms

North Building, Level 200

Industry perspective: Successful investment in the mining sector

Mining industry experts will present corporate perspectives in achieving resource development goals. Mining company executives operating successful mines, or in advanced phase of starting operations, will discuss opportunities and challenges of working in Canada's North.

Indigenous perspective: The role of indigenous people and organizations

This panel will highlight the role of Indigenous people in resource development. Successful collaboration with communities and businesses will be discussed along with the role of community-based planning for development projects.

Regulatory perspective: The role of co-management and institutes of public governance

Regulatory review boards from Nunavut, Northwest Territories, and Yukon will outline their environmental and socio-economic assessment processes and the role of stakeholders (industry, public, communities and other regulators) in this process.

Registration is preferred, but not required. To register, email manik.duggar@cannor.gc.ca or call 867 669 2594.

Deloitte mining workshop series: Exploring issues that matter

Deloitte

Room 201F 8:00 am – 12 noon

Practitioners from Deloitte's mining team will present on a wide range of topics important to the mining community, including: cyber security; sustainability and community wellness; and energy management just to name a few.

8:00 am Cyber risks in the mining sector

Cyber threats and attacks have the potential to cause major mass-scale infrastructure outages and potentially affect the reliability of industrial control systems and health and safety of individuals. In this presentation, we'll discuss the motives and threats and the approaches to help mining companies become secure, vigilant and resilient.

9:00 am Community wellness measures: A panel discussion

In place of traditional approaches to social impact assessment, resource companies and communities are beginning to explore new ways of working together in order to understand local priorities and determine indicators of social, environmental and economic "success". This session will feature representatives from two resource development companies and a First Nations community member along with a social impact expert from Deloitte.

10:00 am Crisis management

Crises often test a company's values, leadership, and character at a time when there is no room for error. A single mega event alone can trigger crises that threaten the very survival of the business. This session will explore financial, operational, and reputational crisis impacts as well as mitigation tools and key lessons in crisis preparedness.

11:00 am 2016 Human Capital Trends for the Mining Industry

The decline in global commodity prices has had a ripple-effect across the sector and compounded continuing talent difficulties. This session will focus on the human capital trends and issues impacting the mining sector and how companies can ensure success and competitive advantage in the current environment through HR.

Registration is required. To register, email nationalmining@deloitte.ca

Ecuadorian Day

Gobierno Nacional de la Republica del Ecuador

2016
Mining Country
Sponsor

Room 205D 8:00 am – 6:00 pm

Investment opportunities in Ecuador's mining sector

Speaker: Javier Córdova Unda, Minister of Mining of the Republic of Ecuador

The Republic of Ecuador, through the Ministry of Mining, is looking to position the nation's mining potential as an important opportunity for investment. During Ecuadorian day, the Minister of Mining will present the most important recent advancements in Ecuador's mining sector and outline the advantages of investing in the country. Significant developments in the status of the strategic mining projects will also be presented, along with new tax incentives and legal improvements approved in the past year. Finally there will be a presentation of the opportunities for exploration and investment.

Additional presentations will be delivered from a delegation formed by the following representatives:

- Delegate from the Coordinating Ministry of Strategic Sectors
- The representative of Ecuador's government in Canada
- Head of ENAMI EP (National Mining Company, state-owned)
- Representatives from mining companies that are currently active in Ecuador

Each member will elaborate further on the global points presented by the Minister of Mining.

All are welcome. Registration is not required.

Peru Day

Canada-Peru Chamber
of Commerce

Room 206D 8:00 am – 6:00 pm

Peru Day at the convention will include a comprehensive and multi-sectorial program covering diverse perspectives that will highlight Peru's comparative advantages as a mining destination. In a concerted effort from Peru's Government and its public institutions, the private sector and other international consultancies, the program will attempt to answer the following questions:

- What are the factors that differentiate Peru from the rest of the mining destinations in the region?
- What are the key reforms accomplished by the Peruvian government in the past years and what is the road ahead?
- What is the current mechanism in place to promote private investment in Peru's mining sector?
- What are the perspectives of the private sector vis-à-vis the risk and opportunities associated with the sector?
- What are the good and successful cases in a polymetallic country such as Peru?
- What are the tools offered by the Peruvian government that are available for prospectors?

The Peruvian government and other public institutions

The program will include presentations by the Minister of Energy and Mines of Peru, Rosa María Ortiz as well as other representatives from key public and governmental entities, including Peru's Geological, Mining and Metallurgical Institute; Peru's Agency for the Promotion of Investment and the Institute of Mining Engineers.

The private sector

The program will aim to highlight Peru's polymetallic richness, showcasing successful operations in copper, silver, gold, zinc and other metals. These good cases will present the perspective of the private sector from a concrete and practical point of view.

The program will present the results of a survey of the private sector's perspectives regarding risks and opportunities for investment in Peru's mining industry. Conducted by a renowned international consultancy in collaboration with the Canada-Peru Chamber of Commerce, the presentation will include a panel of private sector representatives and other international organizations discussing the results and differentiating what's reality and what's myth.

All are welcome. Registration is not required.

Nordic Mining Day: Ore potential, investment opportunities, and technology solutions for sustainable mining in Fennoscandia

Business Sweden, Innovation Norway and Team Finland Mining

Room 206B 9:30 am – 6:00 pm

Known for its untapped geological potential, a lucrative investment climate, political stability and world class mining innovations, the Fennoscandian region offers substantial opportunities for the global mining industry.

- Get acquainted with the geological potential and hear about the exploration and mining activities in the Nordic countries.
- Learn what Nordic mining technology suppliers can offer the industry and see what trends are emerging.
- Meet key stakeholders, including state officials, Nordic mining experts and companies.

9:00 am Registration

10:00 am Opening remarks

10:10 am Fraser Institute Annual Survey of Mining Companies, Fennoscandia

10:30 am Prospectivity session

- The Fennoscandian mineral potential and ongoing activity
- Fennoscandian base metal deposits
- Gold – the commodity for opportunities
- The graphite potential in Fennoscandia

11:30 am Networking break

12 noon Exploration and mining company presentations

1:00 pm Lunch and networking

2:00 pm Exploration and mining company presentations

3:00 pm Innovative mining technologies in Fennoscandia

- Technology company exhibition in Room 205B

4:45 pm NordMin

- Sustainability criteria for the Nordic extractive industry
- Framework for exploration and mining in the Nordic countries. presentations, Q&A by the Nordic mining inspectorates

6:00 pm Reception and networking (Room 205B)

See page 42 for Reception Room details.

For updated program and registration details, visit www.ngu.no/nordicminingday

Registration is required. To register, email lori.woloshyn@innovationnorway.no

Ireland

Geological Survey of Ireland

Room 201F 2:00 – 6:00 pm

The Geological Survey of Ireland (GSI) provides three key services: geoscience data (terrestrial and marine), knowledge centre (independent advice and statutory roles), and project partner, and is part of Northern Ireland's Department of Enterprise, Trade and Investment.

The GSI is a division of the Department of Communications, Energy and Natural Resources which is also home to the Exploration and Mining Division (EMD). The EMD promote the exploration and development of economic mineral deposits in Ireland. In bringing Irish geoscience expertise to international markets, Enterprise Ireland and GSI support Geoscience Ireland, a business development initiative for 24 companies winning overseas business in geoscience.

Ireland has become a significant producer of base metals, ranking second in Europe and eleventh in the world for zinc.

Chair: Gerry Stanley, GSI

- 2:00 pm** **Introduction by Ireland's Ambassador to Canada**, Ray Bassett
- 2:20 pm** **Ireland: A prime location for mineral exploration and development**, Dr Eibhlin Doyle, EMD
- 2:40 pm** **Advances in Northern Ireland**, Kieran Parker, GSNI
- 3:00 pm** **Coffee/Tea**
- 3:20 pm** **Innovation: the iCRAG Project**, Prof. John Walsh, UCD
- 3:40 pm** **Innovation: GSI initiatives – TELLUS**, Koen Verbruggen, GSI
- 4:00 pm** **Internationalising Irish expertise**, Sean Finlay, GI
- 4:20 pm** **Recent successes**
 - Gold in Ireland: Dalradian's Tyrone gold project, Patrick Anderson, Dalradian
 - Gold in Ireland: Conroy's Project, Kevin McNulty, Conroy
 - The Pallas green zinc lead project, Normand Dupras, Glencore
- 4:50 pm** **Summary**, Dermot Reidy, Enterprise Ireland
- 5:00 pm** **Networking reception**

Registration is required. To register, email andrew.gaynor@gsi.ie

Brazilian Mining Day

Agency for Technological Development of the Brazilian Mining Industry (ADIMB)

Room 201D 2:00 – 6:00 PM

Brazil, historically, has been a major producer and supplier of mineral commodities. With its large territory, diversified geologic environment and mining tradition, Brazil has the basis for mineral exploration. These attributes, together with the available infrastructure, political and economic stability, make the country an adequate place for successful investments associated to the mining sector.

This seminar will bring data and information showing that Brazil is one of the most suitable countries for mineral exploration and mine development. Ranked among the top countries in terms of mineral production, Brazil has large open territorial area and geologic environments suitable for new deposit discoveries.

Seminar outline

Brazilian federal government authorities will introduce the priorities for the mining sector and the new framework of the Ministry of Mines and Energy.

Recent successful cases in mineral exploration and mining development in Brazil: This presentation will focus on recent exploration achievements and mining developments in Brazil, including different global players, mid-cap and junior companies. Representatives of those companies will review the discovery and development of significant deposits as well as present their views on the potential for new discoveries of world-class deposits.

All are welcome. Registration is not required.

TUESDAY, MARCH 8

Mining disputes: Lessons and best practices

FTI Consulting

Room 201F 8:00 am – 6:00 pm

FTI Consulting has experts with deep experience in the mining sector who have collectively consulted on projects all over the world across all stages of development. Our professionals have a proven ability to provide practical advice on complex issues to clients in the mining sector based on in-depth industry knowledge and leading edge expertise in the areas of valuation and damages (arbitration and litigation), construction solutions, investigations, operational consulting, communications and environmental services.

FTI will partner with experts in the mining industry, from the legal and mineral engineering fields, for a number of sessions focusing on different aspects of disputes involving mineral projects.

Various sessions from FTI Consulting experts in partnership with King & Spalding and Roscoe Postle Associates Inc. Full session descriptions and presenters are available on the PDAC website.

Registration is required. To register, email debrah.laracy@fticonsulting.com

Deloitte mining workshop series: Exploring issues that matter

Deloitte

Room 206B 8:00 – 11:00 am

Practitioners from Deloitte's mining team will present on a wide range of topics important to the mining community, including: cyber security; sustainability and community wellness; and energy management just to name a few.

8:00 am Realizing value from mine to market: Trends and opportunities in strategic sourcing and supply chain management

Mining companies are facing challenging times and the sector is hard-pressed to sustain economic growth and improve operations. In this session, we will discuss the various trends in strategic sourcing and supply chain and present examples and case studies of how some mining companies are taking advantage of these opportunities to improve operational excellence and to increase shareholder value.

9:00 am Base erosion and profit sharing (BEPS): Implications for the mining sector

With an increasing focus on corporate social responsibility, the taxes paid by mining companies is a focus within the media and social media alike. At the center of the global tax reset is the BEPS initiative, a 15-point Action Plan endeavored to increase

transparency and to create a balanced international tax approach. Join us to learn how these changes can impact your international tax management strategy.

10:00 am Mining for value: Energy Management as a catalyst for value creation

Mining companies worldwide face considerable margin pressures due to declining commodity prices and ore grades and increasing geopolitical risk and stakeholder pressures. Depending on the type of mine and location, energy can represent 15% to over 50% of operating costs. This presentation will discuss the role which innovation and technology can play in energy management and how an effective strategy can drive value for mining companies and its stakeholders over the short and long term.

Registration is required. To register, email nationalmining@deloitte.ca

Chile Day

Trade Commission of Chile and Ministry of Mining of Chile

2016
Mining Country Sponsor

Room 206D 9:00 am – 12 noon

SEMINAR – As cycles dip, opportunities surge

Aurora Williams, Chile's Minister of Mining will highlight the opportunities available in Chile in the context of the current situation in the commodities cycle. Also, the minister will speak about the advantages offered to investors by the world's largest copper producer, both in terms of exploration and exploitation. Those present will be able to ask questions and talk to the Chilean government representative.

During the seminar, the executive director of Chile's Foreign Investment Committee, Vicente Mira, will explain the institutional structure for those who wish to participate by financing or starting a project in Chile. As well, Mr. Mira will respond to queries from investors.

The Chilean National Mining Corporation, ENAMI, will present six prospects for investing in exploration through which it offers opportunities in association with the state-owned company. The exploration management team of ENAMI will provide technical details for each of these prospects, such as their potential, geological model, the research carried out, and the business model offered.

The seminar will include presentations by executives from foreign companies with exploration projects in Chile, who will speak about their experience in the country. Also, there will be presentations by officials from the main Chilean mining associations, who will talk about the investment climate in Chile.

All are welcome. Registration is not required.

Presentation Rooms

North Building, Level 200

Advanced awareness: An explorationist's advantage

Geotech Ltd.

Room 201D **9:00 am – 12 noon**

The Geotech team will showcase exciting advances in airborne EM techniques including presentations from Geotech as well as from invited speakers.

Geotech has been an innovator in the design and application of airborne electromagnetic and related geophysical surveys for 35 years. Geotech specializes in advanced digital helicopter-borne electromagnetic (EM) systems as exemplified by its flagship VTEM™ system and the ground breaking ZTEM™ – the most advanced and powerful systems available today.

Geotech will also be presenting information on other airborne technologies, some in fixed-wing aircraft, that they have available for your exploration needs, including new integrated solutions for airborne and ground techniques, gradient magnetics and radiometrics. Geotech's broad range of geophysical expertise, as well as crews operating from eight offices located strategically around the world, positioning us to meet your exploration needs, globally.

This session will cover how advanced awareness of technology can deliver proven benefits to an exploration program. Newest innovations will be discussed including a focus on resolving shallow to deep exploration targets. Talks will also cover SPM effects and how Geotech has applied a proprietary superparamagnetic (SPM) extraction algorithm for identifying and differentiating SPM-contaminated EM decays from true Ni-Cu-PGE target responses for its recent VTEM™ surveys. Our new systems have been focused on how they can be utilized to help our clients with their exploration efforts to discover the next world class deposit. We will also review techniques in interpretation, Airborne Inductive IP, and advanced processing and modeling that can be used to help define target zones, thus reducing drilling costs and leading to higher success rates.

All are welcome. Registration is not required.

CERBA Eurasia mining conference

Canada Eurasia Russia Business Association (CERBA)

Room 205D **9:15 am – 6:00 pm**

CERBA is hosting its Eurasia mining conference for the 16th year in a row. This year, the conference's multifaceted agenda will focus on key mining industry development trends in Eurasia and offer an open discussion of issues and opportunities in the mining sector. Out of the expected 150 participants, CERBA will be welcoming representatives of leading mining companies, investors, suppliers, Canadian government officials and officials from the most significant mineral producing regions of Eurasia. Companies and experts favour our annual conference as the premier presentation platform and

most successful Canadian business-driven mining event on Eurasia because the conference addresses all relevant developments and prospects for exploration, mining and processing of minerals and metals in Eurasia. It provides a powerful international platform for presenting business strategies, new technologies, investment projects, case studies, as well as for holding polemic discussions with the stakeholders.

Among the topics to be discussed at the conference there are:

- Eurasian markets, political and economic assessment and regulatory updates
- Economic climate globally and financing options for mining companies
- Evaluating mining investment opportunities
- Mitigating risks and legal aspects of the mining industry
- Spotlight on Kazakhstan: challenges and opportunities in the mining industry
- Uranium market outlook
- New international cooperation projects
- Operational efficiency
- Innovative solutions for the mining industry

We look forward to your participation!

Registration is required. Register online at <https://cerba22.wildapricot.org/event-2114180/>, email katherine@cerbanet.org or call 416 862 4403.

Unlocking our potential: Spotlight on the Northwest Territories

Government of Northwest Territories, Department of Industry, Tourism and Investment

Room 201D **2:00 – 6:00 pm**

2:00 pm **Panel 1 and networking session**

4:00 pm **Panel 2 and networking session**

Panel members from government and the northern mining sector will address a range of topics related to the NWT's world-class mineral potential and the initiatives being taken to support and encourage mineral exploration and development and to establish the NWT as an attractive place to invest.

Presentations promise to offer an opportunity to learn more about active and proposed projects, challenges and exciting new opportunities currently at play in Canada's resource-rich territory.

After each of the panel sessions, there will be time for informal networking with panel members and others with knowledge about doing work and business in the NWT, as well as an opportunity to take advantage of various other sources of information.

Presentations promise to offer an opportunity to learn more about active and proposed projects, challenges and opportunities, and exciting new programs currently at play in Canada's resource-rich Northwest Territories.

Registration is preferred, but not required.
To register, email bob_kelly@gov.nt.ca

Mining and the law: Challenges and opportunities – 2016

McCarthy Tétrault

Room 206B 2:00 – 4:00 pm

This program will offer a panel discussion on the latest legal developments and issues facing mining companies operating in Canada and abroad. The program is specifically tailored for in-house counsel and other decision-makers in the mining industry.

Topics will include:

- The "new" regulatory environment in Canada and implications for mining
- When M&A meets mine finance – sharing risks and raising capital
- Update on legal developments impacting the mining sector

The presentation will be made in conjunction with the release of Volume VI of McCarthy Tétrault LLP's Mining in the Courts publication.

Registration is required. To register, email skaralamorthy@mccarthy.ca

WEDNESDAY, MACRH 9

Regulatory news for mining exploration and extraction industry in Chile

Montt Group SpA.

Room 206B 8:00 am – 12 noon

Montt Group SpA. has been participating in PDAC for a few years now. In a constant effort to keep international investors and consultants informed with what's new in Chile on the regulatory front and updating them about legal developments affecting mining exploration and exploitation in Chile, this year we will offer a presentation on labor, tax, environmental and water rights.

Summary of the topics to be discussed:

Labor reform

Speaker: Santiago Montt V.

A major labor reform is currently in its final steps of approval in the Chilean Parliament that will amend several crucial aspects of collective bargaining and strikes. The presentation will cover the content of the reform and provide an update of the current discussions.

Tax reform

Speaker: Omar Morales C.

Law 20,780 of 2014 introduced some significant changes to the tax regime and is now being subjected to new changes

to simplify its application. The reform, to be in full effect by January 1st, 2017 changes the corporate taxation system, introduces green taxes and several other major changes. There is a current project to introduce new changes before the reform comes into effect.

Environmental and water rights

Speaker: Trinidad Prieto A.

This presentation will discuss the environmental rules governing mining activities at their various stages, the main judicial cases occurring in the last year, the role of the agencies that oversee such activity (Superintendence of the Environment and Environmental Courts), and the new bill currently in parliament for discussion to change the regulation on water rights.

All are welcome. Registration is not required.

Expanding the universe of exploration capital

PearTree Securities Inc.

Room 205D 8:00 am – 6:00 pm

9:00 – 10:00 am

Don't leave money on the table: Understand how to incorporate the charity flow-through format to capitalize on this unique financing opportunity

A recent Northern Miner survey showed a disconnect between the perceptions of flow-through financing and charity flow-through financing; 35% of respondents viewed flow-through financing as best suited to the mining industry (the highest of any alternative financing methods compared), while only 2% viewed charity flow-through as the best suited.

Spend time with leading experts in the resource industry confirming that the charity flow-through format is an innovative and highly effective financing opportunity. Debunk the misconceptions of eligibility and the market perspective, better understand the advisor's role in the process as well issuer and investor diligence.

11:00 am – 12 noon

New frontiers in mining finance

Join us and the Northern Miner for a panel discussion on the state of alternate financing methods in the mining industry. Industry experts will discuss their experience with royalties, streaming, private equity, flow-through/charity flow-through and equity crowdfunding.

2:00 – 3:00 pm

Defining success, writing your own rules and building a life to be proud of

Nancy Regan said "A woman is like a tea bag. She only knows her strength when put in hot water". Join us to hear from a panel of trailblazing female executives from within the resource industry. Gain from their unique economic, cultural and operational perspectives including the role of philanthropy in leadership.

Registration is preferred, but not required. To register, email rsvp@peartreeinserv.com

SUNDAY, MARCH 6

SGS Canada Inc.

Room 205B 3:00 – 5:00 pm

Creating value through mine optimization studies: Integrated SGS Minerals Services from resource modeling to water treatment.

Registration is required. To register, email chinta.costa@sgs.com or call 416-858-8317.

MONDAY, MARCH 7

Argentina mining: The best is yet to come

Argentina, Federal and provincial governments

Room 205B 8:00 – 10:00 am

Daniel Meilan, Secretary of Mining of the Ministry of Energy and Mining; Mario Capello, under Secretary of Mining Development; provincial Governors and other authorities will discuss Argentina's recent changes to the regulatory environment, and present the current administration's policies designed to restore competitiveness to mining investors.

Registration is preferred but not required. To register, email fmazzinghi@minem.gob.ar

Nicaragua: Discover the mining opportunities

Condor Gold PLC

Room 205B 11:30 am – 1:30 pm

This is a presentation on Nicaragua's mining sector by the Ministry of Energy and Mines, Pro-Nicaragua – the inward investment agency and the Nicaraguan Chamber of Mines, followed by success stories of leading mineral exploration and mining development companies operating in Nicaragua.

All are welcome. Registration is not required.

The Nordic Mining Day technology exhibition and Ambassadors' reception

Business Sweden, Innovation Norway and Team Finland Mining

Room 205B 3:00 – 8:00 pm

Join us from 3:00 pm to learn about innovative Nordic mining technologies and their applications. The exhibition is followed by an invitation-only reception hosted by the Ambassadors of Denmark, Finland, Norway and Sweden at 6:00 pm. Guests from Nordic Mining Day are invited to network with the Nordic delegations and gain further insight into the Nordic mining industry.

Registration is required. To register, email lori.woloshyn@innovationnorway.no or visit www.ngu.no/nordicminingday for event details.

TUESDAY, MARCH 8

The latest developments in optimization methods – Creating economic and sustainability outcomes

Dassault Systèmes Canada Software Inc.

Room 205B 8:00 – 10:00 am

Economic conditions are challenging and the need for mining companies to improve their strategic planning capability has never been greater. This discussion will provide insight into how the optimization methodology applied to your organization will positively affect your bottom line. You will learn profound lessons that are often counter-intuitive compared to the conventional thinking on how to improve a mining operation or project.

Private event, invitation only.

Minnesota: A great place to live, work, and do business

State of Minnesota Minerals Coordinating Committee

Room 205B 3:00 – 5:00 pm

Minnesota has hosted large-scale mining for over 130 years and has great infrastructure. All the necessary support businesses exist to make your mining successful. Mineral lands are available to lease. Learn about opportunities for investors, explorers, developers, and miners.

Explore Minnesota!

All are welcome. Registration is not required.

Opportunities in the Indian mineral and mining sector

India, Ministry of Mines

Room 205B 6:30 – 8:30 pm

Incredible India offers investment opportunities for investment in the booming mining and mineral sector. India has a long heritage of exploration and exploitation of minerals with vast geological potential.

Come to the India Pavilion:

- To gather the all-important information about geological and investment opportunities;
- To get clarification and information through discussions with policy makers and regulators participating from federal levels and representatives of Indian mining Industries including major private players and state-owned enterprises in exploration and mining.

All are welcome. Registration is not required.

WEDNESDAY, MARCH 9

Advancement of ColdBlock Digestion™ Technology

ColdBlock Technologies Inc.

Room 205B 8:00 – 10:00 am

Advancement of ColdBlock Digestion™ Technology: An assessment of the versatility of the technology for the determination of base metals, precious metals, coal, rare earths and silicates in diverse matrices.

Guest speakers:

- Ian Brindle, Brock University
- Simon Jackson, Geological Survey of Canada

A hot breakfast will be served at 8:00 am.

All are welcome. Registration is not required.

Securitas Protective Services

Room 205B 11:30 am – 1:30 pm

Securitas, a global leader in the security industry, has been providing security services since 1899, with over 320,000 people globally across 54 countries we are uniquely positioned to protect your site, staff, materials, and equipment. Our state of the art technology and

highly trained staff ensure that you receive maximum protection, advanced reporting, and ease of operation while improving your security program productivity. Securitas has the experience and knowledge to offer a broad range of services; including on-site guarding, remote guarding, mobile guarding, technology solutions, risk management, and investigations.

Registration is required. To register, email pedro.bellatin@securitasperu.com

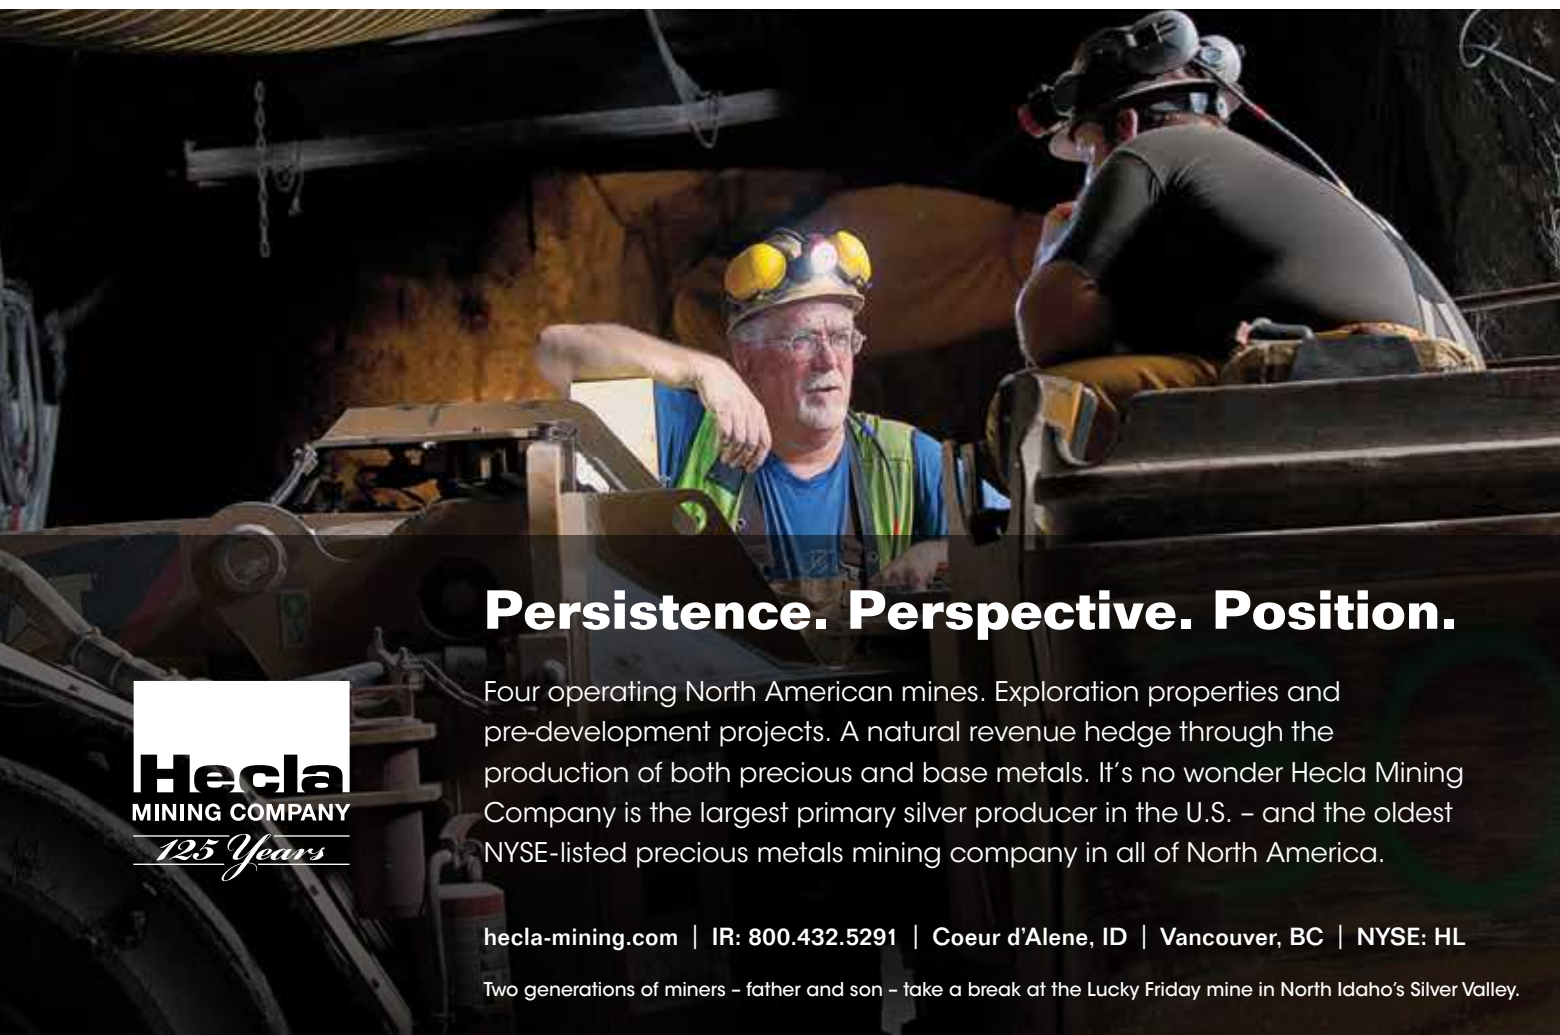

Roundtable on implementation of the voluntary principles on security and human rights

Global Affairs Canada (GAF)

Room 205B 3:00 – 5:00 pm

Global Compact Network Canada, in collaboration with Global Affairs Canada and Export Development Canada, invites extractive companies to a presentation on implementation and verification of the Voluntary Principles on Security and Human Rights. A roundtable discussion with Global Affairs Canada will follow on best practices and challenges met by companies, in the lead-up to Canada assuming the Chair of the VPs Initiative in April 2016.

Registration preferred, but not required. To register, email christopher.millar@international.gc.ca

Persistence. Perspective. Position.

Four operating North American mines. Exploration properties and pre-development projects. A natural revenue hedge through the production of both precious and base metals. It's no wonder Hecla Mining Company is the largest primary silver producer in the U.S. – and the oldest NYSE-listed precious metals mining company in all of North America.

hecla-mining.com | IR: 800.432.5291 | Coeur d'Alene, ID | Vancouver, BC | NYSE: HL

Two generations of miners – father and son – take a break at the Lucky Friday mine in North Idaho's Silver Valley.

Student Program

Admission with pass colours listed below (unless otherwise noted)

Student Hub

The Student Hub (formerly Student Booth) is located on Level 800 across from the Trade Show entrance. This new space will host Résumé Review sessions, registration for the guided tours of the Trade Show and Investors Exchange, and other engagement opportunities for students.

Résumé Review

Sign up at the Student Hub for a consultation with a geoscience professional, Patrick McAndless, who will review your résumé and discuss personalized networking techniques. Students are encouraged to bring a copy of their résumé to the session. Sessions will run from Sunday March 6 – Wednesday, March 9.

PDAC-CIM Toronto Branch Guided Tours

The tours are a great way to become acquainted with the 900+ companies that exhibit in the Trade Show and Investors Exchange. Each tour stop will last approximately seven minutes and will focus on the exploration and/or production aspects of the company's projects and career opportunities.

Sign up on-site at the Student Hub.

Sunday	March 6	1:00 pm
Monday	March 7	10:00 am & 1:00 pm
Tuesday	March 8	10:00 am & 2:00 pm

SUNDAY, MARCH 6

PDAC Survival Skills

Room 714
2:30 – 4:00 pm

Discover the many opportunities available to you during the Convention and learn strategies for successfully networking and navigating your way through PDAC 2016. Patrick McAndless will help you showcase your potential value to employers and build marketing tools to help you succeed in your career.

MONDAY, MARCH 7

PDAC-NSERC-CMIC-GSM-SEG Student Minerals Colloquium

Fairmont Royal York, Ballroom
12 noon – 7:00 pm

PDAC is pleased to partner with the NSERC-CMIC Footprints Network, the Goodman School of Mines and the SEG Canada Foundation in sponsoring the Annual Student Minerals Colloquium. This event is organized by student leaders from the SEG student chapters at Laurentian University and the Ottawa-Carleton Geoscience Centre and will feature approximately 100 poster presentations highlighting current research on mineral deposits and related studies by students

from across North America. Prizes for best posters will be awarded during the cocktail reception. Cocktail reception 5:00 – 7:00 pm. Awards presentation at 6:00 pm.

Scan this QR code for a list of all posters or visit cmic-footprints.ca/smcc

MONDAY, MARCH 7

Student-Industry Forum

Room 718
3:30 – 5:00 pm

A panel of young geoscientists will share their post-graduation experiences as it pertains to building their careers in the exploration and mining industry. Participate in the Q&A with the panel to follow.

Moderator: Dr. Mary Louise Hill, Lakehead University

Panelists:

Neil Wayne Kennedy, IAMGOLD Corporation
Geneviève Krasowski, KGHM
Linette MacInnis, Detour Gold Corporation
Seamus Magnus, Ontario Ministry of Northern Development and Mines
Scott Miller, P.Geo, Matrix Solutions Inc.
Pamela Patraskovic-Forn, DGI Geoscience
Alexander Pleson, Pleson Geoscience

TUESDAY, MARCH 8

Student-Industry Networking Luncheon

North Building, Rooms 105/106
11:30 am – 1:30 pm

The flagship event of the student program; this reception-style buffet luncheon provides an opportunity to make valuable connections with industry professionals and peers. The winner of the Mary-Claire Ward Geoscience Award will be announced as well as the selected 2016 Student-Industry Mineral Exploration Workshop (S-IMEW) students. There will be a random draw for five \$300 tuition top-up awards. Proof of student membership is required to claim the award.

Admission with an All Access Pass, Exhibits Day Pass or Exhibitor Pass and ticket.

2016 Mary-Claire Ward Geoscience Award Winner

This year's recipient of the Mary-Claire Ward Geoscience Award is Jordan McDivitt of Laurentian University.

His M.Sc thesis focused on the structural and hydrothermal evolution of gold mineralization in the Missanabie-Renabie district, Ontario, Canada by integrating detailed field mapping with a number of geochemical techniques. The product provides the data needed to characterize and constrain gold mineralization hosted within a ca. 2.72 Ga tonalite batholith in the context of regional geology and deformation. The results contribute to furthering the understanding of gold metallogeny in the district in order to aid the mineral exploration industry.

Jordan will receive his award at GAC-MAC 2016 to be held June 1 – 3 in Whitehorse, Yukon. The award, comprising \$5,000 and a certificate, is given annually and honors the memory of Mary-Claire Ward who died in 2004. Mary-Claire was the chair of the PDAC's geoscience committee, chairman of Watts Griffis McOuat Ltd., and a past president of the Geological Association of Canada. She was a passionate advocate for the geosciences in Canada.

The intent of the award is to encourage and support a graduate student in Canada whose thesis contributes to our knowledge about the geological history of Canada. Mapping must be a significant component of the winning thesis.

The award is administered by the Prospectors & Developers Association of Canada (PDAC), the Geological Association of Canada (GAC), the National Geological Surveys Committee, the Canadian Geological Foundation, and Watts, Griffis and McOuat Ltd.

Application details are posted at www.pdac.ca and www.gac.ca by October 1 every year.

Look Closely Mining Matters

For over 21 years, IBK Capital has proudly supported Mining Matters, an educational program that offers a curriculum on rocks, minerals, metals and mining to schools across Canada.

IBK Capital Corp.

www.ibkcapital.com | Tel: +1 416 360 4505
The Exchange Tower, 130 King St. West
Suite 640 | Toronto, Ontario M5X 1E4

Thank you for your support!

Mining Matters is a charitable organization dedicated to bringing knowledge and awareness about Canada's geology and mineral resources to students, educators and the public. The organization provides current information about rocks, minerals, metals, mining and the diverse career opportunities available in the minerals industry. **Mining Matters** offers exceptional educational resources that meet provincial curriculum expectations, created by educators and Earth science experts.

Mining Matters has reached an estimated 600,000 teachers, students and members of the public since inception in 1994.

As a charitable organization, **Mining Matters** greatly appreciates the contributions from the minerals and aggregates industries, individuals, foundations, corporations and government. These generous donations make possible all aspects of our program development and implementation.

Short Courses

Tickets to Short Courses may be purchased, SUBJECT TO AVAILABILITY, at the Ticket Sales Desk, Level 600.

To qualify for student rates, you must be a student member of PDAC and enrolled full time in a recognized academic program. Student spaces are limited.

Unless otherwise noted, all full-day Short Courses include: course material, continental breakfast, 3 course lunch and refreshments.

Need professional development hours to maintain your professional designation?

Upon request, PDAC will provide a certificate of completion for Short Courses to help you meet your PD hour requirements. The Association of Professional Geoscientists of Ontario (APGO) supports participation of its members in these courses as acceptable Continuing Professional Development activities.

Best practices in mineral exploration projects and how to avoid common errors encountered in technical reports and other disclosures made by Issuers

Friday, March 4

Room 803 8:00 am – 5:00 pm

Organizer: Charles Beaudry, Consultant, with contributions from the Ontario Securities Commission, TMX Group & Watts, Griffis and McOuat Limited

Various regulatory authorities across Canada have been regularly reviewing compliance with respect to disclosure requirements by corporations listed on the TSX and TSXV (Issuers) with surprisingly uniform results over space and time. The same types of errors appear frequently in spite of regular and frequent efforts to educate.

The course is addressed to Qualified Persons (QPs) and mining industry participants, particularly company executives and investor relations personnel and others interested in a better understanding of the obligations of Issuers and QPs with regard to disclosure of technical information related to mineral projects under NI 43-101.

The morning session will deal with common pitfalls and disclosure challenges at the various stages of development of a mineral project, through the use of case studies and examples of good disclosure practices for news releases, websites, investor relations materials and other written disclosure. The session will also include a discussion on technical reports and common issues that may require the technical report to be amended and re-filed.

The afternoon session will focus on best practices in the field, in the office and in mineral resource estimation. It will also provide guidance to industry practitioners with respect to the design of exploration projects, the collection of data used to prepare technical reports, mineral resource and mineral reserve statements and on the reporting of such information to the public. All the presentations will highlight those particularly troublesome

errors in disclosure that always make the top 25% of recurring problems seen during regulatory reviews.

The overall objective of the course is to help mining companies improve their disclosure compliance and avoid being called upon to explain or worse, to clarify or correct their disclosure with all its implications of time, money and reputation.

Presenters:

Craig Waldie, Ontario Securities Commission
James Whyte, Ontario Securities Commission
Paul Teniere, Toronto Stock Exchange
Charles Beaudry, Consultant
Kurt Breede, Watts, Griffis and McOuat Limited

Structural vectoring in mineral exploration: What it is and how, when, and why we should use it

Friday, March 4

Room 716B 9:00 am – 5:00 pm

Organizer: Rogerio Noal Monteiro and associates, Vektore Exploration Consulting Corporation

The goal of structural vectoring is to define the linkage between structural features and mineralization processes and use it to predict location, shape, orientation and continuity of mineral bodies. This linkage is particularly useful when drilling a mineral target. In this short course, we will present and discuss the concept of structural vectoring in mineral exploration and recommend a suitable workflow. In addition, we will show plausible ways to harmonize structural vectoring with geochemistry and geophysics to significantly improve exploration of mineral targets.

Since this course is centered on target evaluation and development, we will focus on structural vectoring concepts, tools and methods at the drilling stage. The instructors will present examples of real case mineralization-related structural features and discuss how to collect such data and use these features as predictive tools for direct drilling towards mineral bodies.

Short Courses

Strategies on what, why and how many structures should be collected to provide a robust dataset will be proposed to the group and debated. The guidelines for structural logging of core will be carried out by using core samples.

A new method of collecting structural features from oriented and non-oriented core, the V-SET® Method, will be introduced to attendees who will have the opportunity to compare its characteristics and strengths with current industry standard methods.

This practical exercise will help prepare attendees to solve their real case geometrical problems, leading to a better understanding of mineralization processes and their interactions with host architecture. The geometry of drilling and its interaction with a mineral body will also be discussed and viewed from the structural vectoring perspective.

The instructors will illustrate the usefulness of structural vectoring through a series of case studies.

The metallogeny and exploration for zinc ores: Meeting the challenge for new resources

Friday, March 4 and Saturday, March 5

Room 701A 8:00 am – 5:00 pm

Organizer: Society of Economical Geologists (SEG)

In view of recent and pending closures of some world-class zinc ore deposits, the discovery of significant zinc resources is needed to meet future world demand.

Given that “easy” discoveries are unlikely in the future, successful exploration must design robust exploration protocols that can prioritize targets based on our current knowledge of ore systems and understanding of what has or has not worked. This workshop provides an overview of the metallogeny of the most important sources of zinc ores: clastic-dominated, Mississippi Valley-type, volcanic-hosted massive sulfides and carbonate replacement deposits. Such ore deposits may also contain significant amounts of lead, copper, gold, silver, and critical elements such as germanium and indium.

The focus of the workshop is to provide the exploration geologist with practical, process-based exploration tools based on insights into why and where these ores form in the Earth's crust. The course will benefit graduate students interested in recent advances in ore models, exploration geologists targeting deposit to belt-scale resources, and exploration managers wanting an update on the most recent ideas.

Examples of the world's important mineral districts and giant deposits will be discussed to provide insights into the coupling of geological and geochemical host-rock attributes with tectonics, structural features, and fluid-flow that controlled ore deposition. To illustrate the variations within each ore type, discussions on the geological, structural and tectonic settings, alteration, zoning attributes, petrochemical constraints and distal footprints to ores will emphasize the spectrum of deposits and how to design robust exploration protocols. Case studies of discoveries and examples of field-based “exploration tools” and techniques will be presented. Ample time will be provided during the sessions to encourage discussions between participants and presenters.

Presenters:

David L. Leach, Colorado School of Mines

Jim Franklin, Franklin Geosciences

Peter Megaw, Chief Exploration Officer, MAG Silver Corp.

Level of comprehension: Intermediate to advanced

Advancing exploration projects to production: Critical inputs for success **SOLD OUT**

Friday, March 4 and Saturday, March 5

Room 714B 9:00 am – 5:00 pm

Organizer: SRK Consulting

To save time and money, exploration companies must continually reassess their projects. Financial viability is conclusively determined only after a detailed feasibility study is done and financing secured. However, prior to completing feasibility studies, other systematic studies can highlight opportunities and risks within projects. This can help exploration companies to make, in a timely manner, the right decisions about whether or not to advance their projects.

This course will describe the steps needed and issues to consider in advancing exploration projects to production. Topics to be discussed include: resource classification and prospects for economic extraction, an introduction to mining methods, mining method selection (open pit or underground), an introduction to strategic mine planning, fundamental concepts in mine design (e.g. cut-off grade, metal equivalent, net smelter return [NSR] calculation, and dilution), setting of economic parameters, mill production rate determination, mine production scheduling, stockpiling, mine economic analysis, an introduction to geotechnical engineering in open pit and

underground mines, metallurgical aspects of projects and their impact on project value, and processing options for dealing with increasingly challenging ore properties (e.g. very hard, low grade, or impure elements). Issues related to permitting, community relations, and environmental aspects of exploration projects will also be addressed.

Case studies and examples of real-life projects will be presented throughout both days of the course. At the end of each day, a few examples of cut-off grade and NSR calculations will be practiced.

Objectives:

This course will help you and your team to:

- Become familiar with the unique demands of today's exploration projects and learn to implement best practices
- Learn how to streamline communication between geologists and mining teams
- Become familiar with the terms, procedures, conditions, limits, and critical inputs of mine design
- Understand mine design techniques such as pit optimization and production scheduling
- Learn the principles of strategic mine planning
- Develop a better understanding of – and the ability to interpret – technical mining reports
- Discuss key mining terms and concepts such as best case, worst case, base case, cut-off and cut-over grades, strip ratio, metal equivalent, and dilution

Presenters:

Anoush Ebrahimi, SRK Consulting
 Gilles Arseneau, SRK Consulting
 Adrian Dance, SRK Consulting
 Jarek Jakubec, SRK Consulting
 Mark Liskowich, SRK Consulting
 Bob McCarthy, SRK Consulting

Level of comprehension: Beginner to intermediate

Requirements:

If possible, please bring a fully charged laptop or tablet equipped with MS Excel for participation during an in-class exercise.

Structured Excel modeling, financial and risk analysis for mining

Friday, March 4 and Saturday, March 5

Room 801A 9:00 am – 5:00 pm

Organizer: Amec Foster Wheeler

This two-day workshop will cover the basics of mining economic evaluation and provide an introduction to risk modeling. Emphasis will be on construction of structured models which allow for auditability and re-usability. The workshop should be of interest to mining analysts, project managers, Qualified Persons, officers and directors of mining companies, and their professional advisors. The workshop is not intended to provide training on advanced evaluation techniques.

The workshop will focus on modeling of properly structured financial models that follow a disciplined approach, are oriented around the mining/mineral process flow, are easy to review and are re-usable by both the author and others. A basic introduction to risk modeling by means of Monte Carlo analysis will also be provided.

Instruction will be interspersed with individual exercises and each student will construct a complete discounted cash flow model and a risk model. Fully functioning trial copies of Crystal Ball will be provided for the Monte Carlo exercises.

Among other topics, the following will be covered:

- Importance of structure
- Advanced Excel functions
- Purpose of financial modeling
- Elements of cash flow
- Basic discounted cash flow analysis
- Common errors, pitfalls and traps in cash flow modeling
- Sensitivity analysis
- Scenario and trade-off modeling
- Risk register, schedule risks, macro events and owner's risk
- Monte Carlo risk modeling
- Discussion of application in capital estimation, stress testing and schedule variation

As the program is highly interactive, discussion will be strongly encouraged and team-oriented case studies will be provided.

Presenters:

Graham Wood, Amec Foster Wheeler
 Vikram Khera, Amec Foster Wheeler

Short Courses

Level of comprehension: Intermediate

Requirements:

As this will be a hands-on course, each attendee is required to provide a laptop computer (fully charged) and should have attained at least intermediate skills in usage of Microsoft Excel.

Metallurgy for geologists

Saturday, March 5

Room 713 9:00 am – 5:00 pm

Organizer: RPA Inc.

A basic understanding of metallurgy, or more precisely, the geo-metallurgy of deposits, provides opportunities to develop projects in the most efficient manner possible. Knowledge of the metallurgy of a deposit minimizes costs and risks associated with the project development. It can reduce the time required to make informed decisions to bring projects into production, or to abandon them and move on to other projects that will be more likely to meet a company's objectives.

Collecting and interpreting metallurgically-related data is best initiated soon after the deposit discovery. Project development requires the support of interdisciplinary teams that consider not only the geology, but also mining requirements and methods, metallurgy and process design, and environmental and social awareness and understanding, among other things. Geologists are not commonly exposed to mineral processing at university. The goal of the course is to explain why the metallurgical response of geological deposits is oftentimes more important than the geological characteristics as a project moves into operations.

This one-day course is designed to provide exploration geologists and managers with an understanding of the essential components of sample selection, metallurgical test work, results interpretation, and the financial implications associated with the results. Case studies from current projects, with an emphasis on gold processing, will be included to demonstrate the principles that are presented.

Objectives:

- What are the important metallurgical properties and why do they matter?
- How to understand metallurgy starting from the beginning of exploration
- Best practices in geological/metallurgical sampling
- Sample selection criteria and requirements for metallurgical studies
- Selecting assaying protocols that also promote understanding of the metallurgy
- The role of geostatistical block models and geo-metallurgical modeling
- Introduction to mineral processing and "typical" flowsheets for gold recovery
- Geo-metallurgical characteristics that impact process design
- The value of integrating metallurgy with geology to make informed decisions
- Applying metallurgical and economic parameters into net smelter return calculations to estimate economic cut-off grades
- Review case studies, economics, and conclusions

Presenters:

Kathleen Altman, RPA Inc.
Jason Cox, RPA Inc.
Reno Pressacco, RPA Inc.

Target course participants:

- Exploration geologists
- Mine geologists
- Resource geologists
- Engineers who want a refresher course in metallurgy
- Exploration and mining company management
- Investors with a basic understanding of mining operations and geology

Health and safety in mineral exploration

Saturday, March 5

Room 803B 8:30 am – 4:30 pm

Organizer: Bill Mercer, Avalon Rare Metals Inc.

The objective of the course is to give participants sufficient training that they can understand the following:

- What the typical risks are in mineral exploration
- Completion of an elementary risk assessment of a task
- Investigating an accident
- Collection, compilation and understanding of health and safety statistics
- At a high level, how health and safety can and should be administered
- What the special risks are around drilling (accidents) and helicopters (fatalities)

The participants, if from a small company, will have enough information to start a health and safety (H&S) program, if such does not exist. If from a larger company, they will understand better what the company program is attempting to achieve, and also some specific technicalities of risks around drilling and helicopters. The course is targeted at those active in mineral exploration in the field, although management aspects of H&S will also be covered.

Presenters:

Bill Mercer, Avalon Rare Metals Inc.
Buck Page, ERM Rescan
Mark Wiseman, Avalon Rare Metals Inc.
Brian Maeck, Boart Longyear Limited
Corey Taylor, Great Slave Helicopters

Level of comprehension: Beginner to intermediate

Course fee:

(includes course material, continental breakfast and lunch)

Regular Rate

PDAC is pleased to offer this course at a special rate as part of the Association's ongoing leadership in Health and Safety, and its commitment to improving responsible exploration.

DMEC workshop series: Making technology work; the importance of time and patience

Wednesday, March 9

Room 714B 2:00 – 6:00 pm

Chairs: Ken Witherly, Condor Consulting, Inc. & Charles Beaudry, Consultant

Successful minerals exploration can be considered a process that relies on a stream of new technology as part of the constant improvement required to offset the effects of things like: terrain maturity, challenging targets, and cost effectiveness.

Most new technology comes into the exploration environment without a user manual, defined methodology, or a way to effectively integrate the new technology into the exploration process. The industry typically has to rely on its own empirically developed "best practice", often obtained through the efforts of people who lack the specific knowledge of the new technology.

Early experiences with new technology can often be deemed "failures". These failures are more likely attributable to a lack of understanding as to how technology should be applied.

This DMEC-PDAC seminar will examine a number of examples where, after initial "failure" of a technique, users were able to adapt and learn to arrive at a successful outcome.

Presenters:

Richard Tosdal, CMIC Footprints Program
Peter Winterburn, University of British Columbia-MDRU
John Gingerich, Advanced Explorations Inc.
Ken Witherly, Condor Consulting, Inc.
Alan King, GeoScience North
Leigh Freeman, Leigh Freeman Consulting

MONDAY, MARCH 7

Mineral Outlook Luncheon

South Building, Level 700, Room 718

12 noon – 2:00 pm

Guest Speaker

Don Coxe, Chairman, Coxe Advisors LLC., Chicago, USA

Commodities await their date with destiny

PDAC welcomes Don Coxe who will discuss the status of the mining industry – in Canada and globally – now and three years from now. Don believes companies should be planning this year, to position themselves for the onset of inflation, which will raise mineral prices, companies' stock prices, and the costs of capital.

Admission with ticket. Tickets: \$80 each (inclusive)

Sponsored by

Don Coxe

Trade Show Reception

North Building
Trade Show North, Level 300, Hall C

3:00 – 5:00 pm

Enjoy a glass of wine or beer as you network with attendees and Trade Show North exhibitors. Complimentary drink ticket in the All Access Pass registration bag and with your Trade Show attendee pass. Cash bars available.

Admission ONLY with convention pass. Open to all pass types.

MONDAY, MARCH 7

Awards Evening

Fairmont Royal York, Canadian Room

Outstanding achievements are honoured at the prestigious annual PDAC Awards Evening, where individuals and organizations are acknowledged for their significant contributions to the Canadian mineral industry. This hallmark event features pre and post receptions, a delectable three-course dinner, fine wine and live jazz music.

Engaging videos, showcasing the stories and underscoring the accomplishments of each award recipient, highlight this memorable evening.

6:00 – 7:00 pm Reception
7:00 – 8:30 pm Dinner
8:30 – 9:45 pm Award Presentations
9:45 – 11:00 pm Reception

Investors Exchange

Sponsored by

Welcome to PDAC

On behalf of all of us in the Base Metals business at Vale, allow me to welcome you to Canada, to Toronto and to the 2016 Prospectors and Developers Association of Canada annual convention.

Since its beginnings in 1932, the PDAC Convention has grown to become the premier meeting place for the international mining and minerals industry. At Vale, we are both proud and honoured to be a sponsor of this world-class event, and of the Investors Exchange, again this year.

The Investors Exchange offers an opportunity for junior exploration companies, major mining companies, mid-sized producers, prospectors, stock exchanges and investors to meet face-to-face to share accomplishments, challenges and opportunities. While we are together in this forum, we would be amiss to let 2016 go by without taking every opportunity to discuss the challenging market we find ourselves in.

At Vale, we are focusing on what matters — maintaining our efforts to be a safe and reliable producer; improving our efficiencies; and delivering value to our people and our communities. We are looking forward to engaging in conversation with you this week — our partners, peers, shareholders and friends — as we navigate this unprecedented time.

From now until March 9, the mining world is right here in Toronto — take advantage of it.

Regards and Best Wishes,

A handwritten signature in black ink, appearing to read 'Jennifer Maki', written in a cursive style.

Jennifer Maki
Executive Director, Vale Base Metals
Chief Executive Officer, Vale in Canada

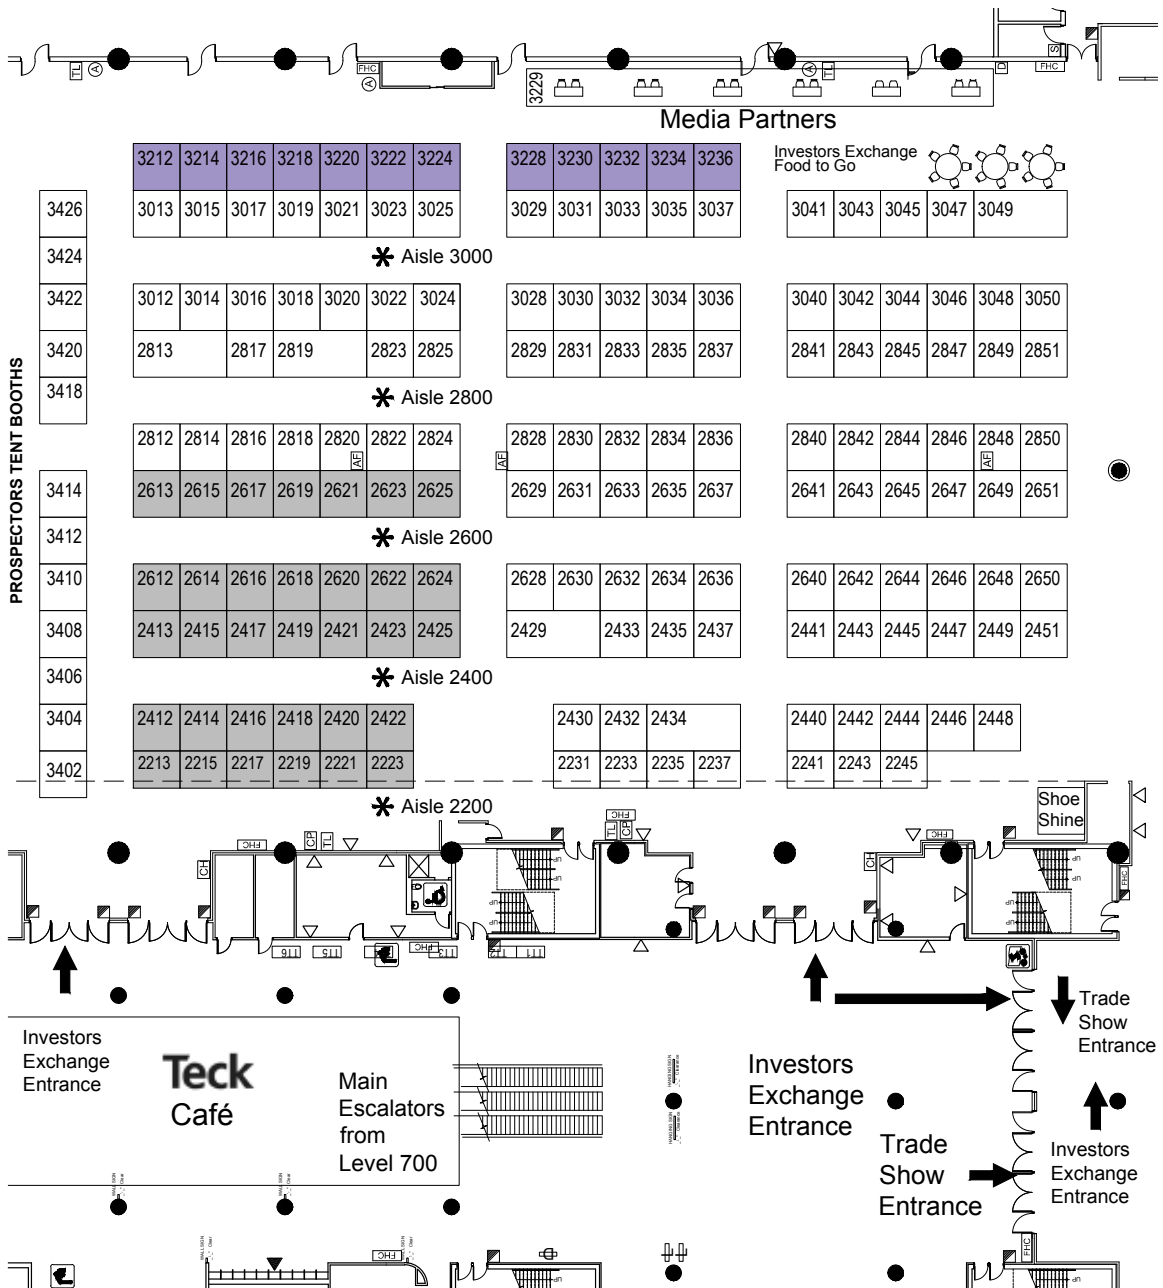

Did you know that our operations in Sudbury, Canada, refine enough ore to make 8.3 billion nickel coins a year?

And that's just the beginning.

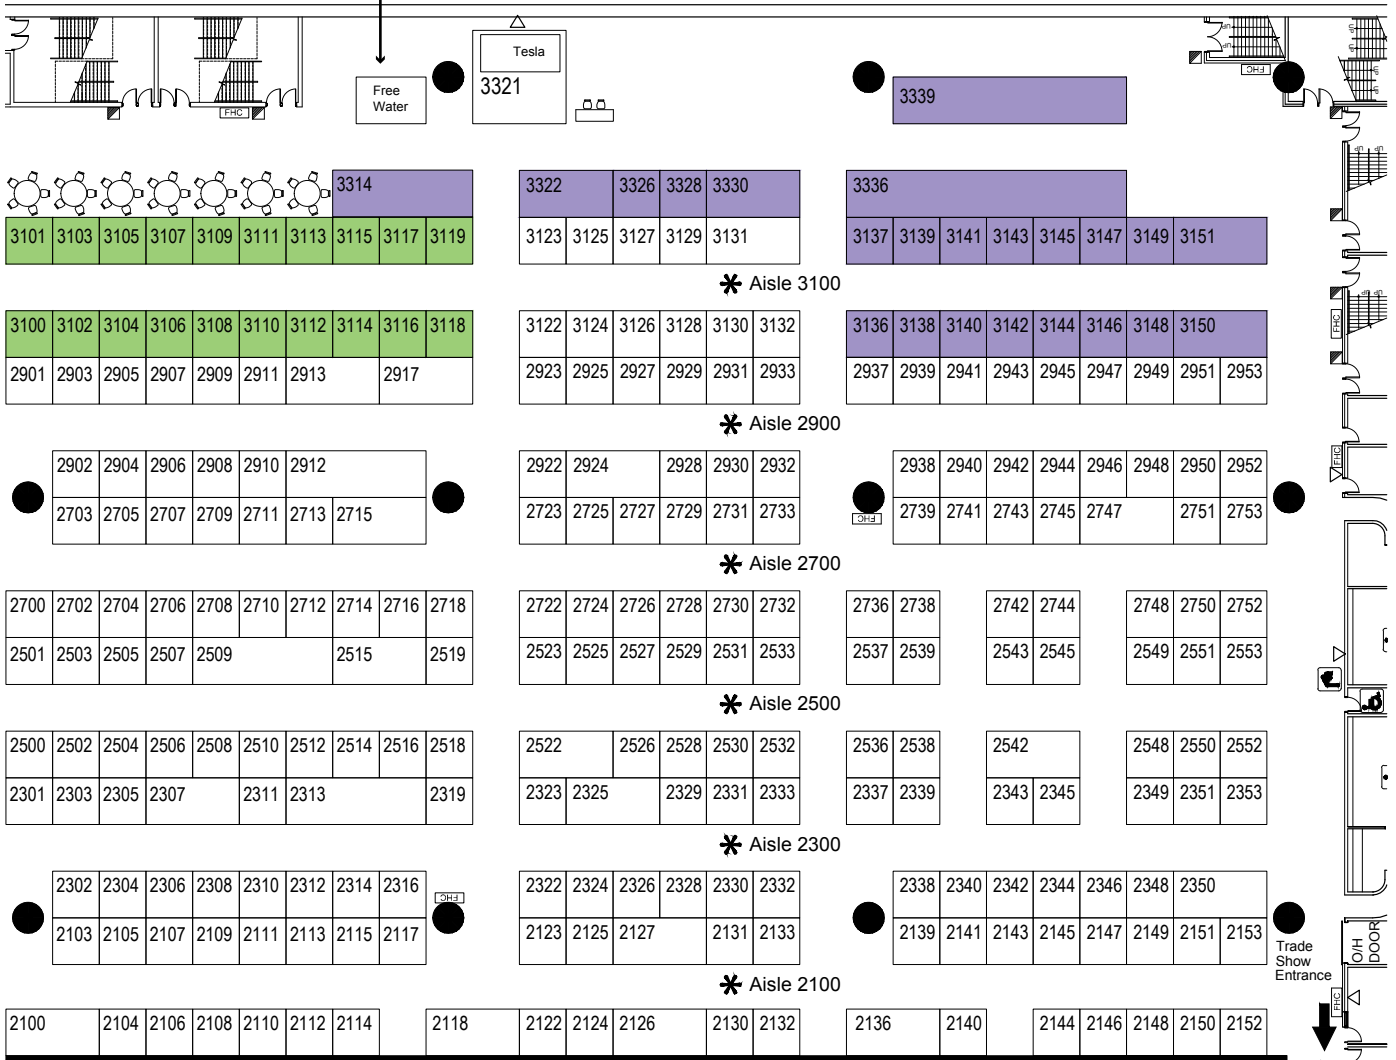

PDAC is a time to learn as much as we can from each other. Let's take every opportunity to do so.
